

Easy. Fast. Done.

PATCH plus primer

Spackling Compound

Makes repairs

3X Faster

than traditional spackling*

Spackling & Primer in One / Professional-looking results

Easy. Fast. Done.

The newest technology in wall repair

Saves time. Saves your work. Saves your wall.

3M™ Patch plus primer is a spackling compound and primer in one, which eliminates the need to prime before painting. It creates a quick-drying patch. It is ready to paint in 30 minutes and dries hard enough to hold a nail or screw. The repair will be virtually invisible under dried paint, giving you professional-looking results.

Features and benefits

- Spackling compound and primer in one — no need to prime
- Makes repairs 3x faster than traditional spackling*
- Professional-looking results
- No flashing (won't change paint sheen)
- Great hiding power
- No shrinking or cracking
- Ready to paint in 30 minutes
- Firmly holds nails and screws
- Square tub accommodates a 3" putty knife

Won't shrink or crack.

Superior hiding power.

A Competitor 3M™ Patch plus primer
