

CE

Particularly suitable for charging and powering vehicles while reprogramming and self-diagnosing

kg

150x100x250 mm

### SPECIFICATIONS

- Max. charging/power supply current: 50 Amp
- charging
- battery recovery
- power supply for ECU diagnostic protocols
- electronic management through microprocessor
- protected against polarity reversal and short circuits

### TECHNICAL DATA

Cable length: 3m

Section: 10 mm<sup>2</sup>

Charging capacity: 5-500Ah

Maintenance capacity: 5-1500Ah

Voltage: 12V
