

## RV Roof Protectant

---

- Maximizes the life of RV rubber roofs by **cleaning and protecting in one application.**
  - This rubber RV roof cleaner removes black streaks, oxidation, and general build-up.
  - Safe for EPDM, PVC, TPO, and most RV roof surfaces.
  - Contains an **SPF 70 UV blocker** that will adhere to the surface and provide up to **six months of protection** against UV rays, chalking, streaking, and deterioration.
  - Petroleum-Free: Contains no petroleum solvents, distillates or harsh abrasives.
  - Made in the USA.
- 

## Green Cleaning Attributes

- Petroleum-Free
- 100% of the packaging is recyclable
- No Animal Testing - No Animal Ingredients
- Environmentally Friendly, Biodegradable, Non Aerosol, Ozone Safe

**NOTE:** Prior to cleaning inspect RV roof for damage or potential water leaks.

**DIRECTIONS:** Shake well before use. At least two applications a year are recommended for optimal protection. Use product at regular strength for 1-2 applications per year. For more frequent applications dilute product 1:1 with water (one gallon RV Roof Cleaner & Protectant mixed with one gallon of water).

Sweep excess dirt off RV roof with a broom and rinse entire RV surface including the roof, sides, front, and back. Leave RV roof wet and apply RV Roof Cleaner & Protectant in 3-4 ft. sections. Agitate with a wet scrub brush. Absorb residue with a sponge mop and rinse the mop in a clean bucket of water. Repeat until entire roof is clean and rinse completely. Stubborn areas may require a second application.

Once roof has been cleaned it is strongly recommended to wash the exterior of the RV with **RV Wash** to clean any sediment removed from the roof onto the RV exterior.
