# The Fastest Installation in Its Category

Al Series FRESH AIR SYSTEMS

INTRODUCING VIRTUO AIR TECHNOLOGY

VIRTUD

BROA

# Installing fresh air systems has never been so simple.

Forty years in the industry has taught us a few things, like the details that can make all the difference to an installer. This is why we turned our classic fresh air ventilation line into a single and versatile platform: the **AI series**. A platform specifically designed and improved to make your life easier and more profitable, in addition to offering superior air quality to your customers.

### **Quicker Setup**

SAVES YOU UP TO 20 MINUTES PER UNIT

Our new **VIRTUO technology** does the airflow verification and balancing for you, eliminating two complex parts of the installation process. All of the settings have been simplified while the straightforward system makes it fast and easy to train the homeowner.

### **Consistent Results**

NO UNEXPECTED SURPRISES

Simpler installation results in greater consistency in the installer's work. **Auto-balancing** sets a reliable initial configuration in all dwelling types, and self-adjustment ensures the unit operates at optimal performance levels throughout its lifetime.

# **Satisfied Users**

EASE OF OPERATION

High-quality installation brings **peace of mind** for homeowners. User-friendly operation and additional automatic options and features allow users to easily draw maximum benefits from the units.

# Your Smart Built-In Assistant

# Making your life easier. Saving you time and money.

Introducing the most advanced artificial intelligence technology that allows a ventilation system to do an airflow verification and auto-balance in all dwelling configurations and to self-adjust to changing indoor and outdoor conditions.

# Stay on Duty, Even After You Leave

#### CONTINUOUS SELF-ADJUSTMENT

With VIRTUO, you can rely on a monitoring system designed to preserve the quality of your work. When a pressure change occurs, VIRTUO detects it and instantly adjusts the unit operation to consistently deliver the right CFM value. 100% BALANCED. Always. At all times.

Unlike older generations of ventilation systems, VIRTUO continuously self-adjusts and takes account of variations to stay balanced 100% of the time, which maximizes the heat recovery of your HRV/ERV and optimizes air quality. This provides the homeowner with maximum savings and comfort.

#### END USER PEACE OF MIND MEANS FEWER CALLBACKS

VIRTUO only has one thing on its mind: the homeowner's comfort. It maintains optimal indoor air quality and comfort without any action required from the homeowner. In addition, by ensuring continuous balancing, VIRTUO doesn't create positive or negative pressure and maintains the property integrity and value.

### A Key Member of Your Installation Team

#### AUTOMATIC AIRFLOW VERIFICATION AND AUTO-BALANCING

VIRTUO performs a complex part of the installation work for you. Thanks to its smart auto-balancing system, the AI series analyzes and communicates the maximum achievable air flow for both exhaust and supply flows through its LCD screen. The calibration is achieved quickly and maintained throughout the life of the product, with superior accuracy.

#### ELIMINATE STEPS IN THE INSTALLATION PROCESS

No need to adjust or fine-tune balancing dampers, pressure taps or pressure gauges, thanks to VIRTUO Air Technology.

# Trained to Only Make the Right Decisions

24/7

#### A TESTED ALGORITHM THAT ENSURES HIGH PRECISION

VIRTUO's intelligence was thought out, programed and tested to maximize the full potential of the state-of-the-art components assembled into every AI series unit. It uses fine motor speed adjustment capabilities to adjust ventilation with utmost precision. Its dynamic data analysis ensures fluid interaction between sensors and motors.

#### ENERGY SAVINGS AND INDOOR AIR QUALITY, 24/7

VIRTUO is nimble. It makes quick decisions based on a series of indoor and outdoor factors such as temperature and humidity. With real-time detection, it generates quick adjustments and automatically optimizes air quality around the clock. This quick action also minimizes energy consumption for the homeowner.

# Making Your Day Productive

No detail is too small. Our ultra-compact, **universal platform** design fits everywhere, gives you all the features you need and is quick to install, easy to get up and running and simple to use.

# Giving Users Full Control

When things are simple, everything is so much easier.

#### **User-Friendly Design**

EASIER FOR HOMEOWNERS

Touchscreen technology provides advanced support and information for a greatly enhanced user experience

#### EASIER FOR INSTALLERS

Advanced control used to determine the air flow makes setup faster and easier, and time-saving preconfigured setup program

#### Well-Thought Design

COMPACT DESIGN AND STANDARDIZED SIZE AND SHAPE TO FIT ALL APPLICATIONS SIMPLIFIED SERVICING AND MAINTENANCE

#### **Proven Core Durability** and Performance

UP TO 75% SRE, TESTED UNDER EXTREME CONDITIONS (-31°F) AVAILABLE WITH HRV/ERV CORE

#### **Small but Powerful**

160 CFM IN AN ULTRA-COMPACT DESIGN

#### **Superior Air Filtration**

HIGHER FILTRATION PERFORMANCE TO ANSWER GROWING CONSUMER AND CODE REQUIREMENTS

COME STANDARD WITH MERV 8 FILTERS: CAPTURE MOLD SPORES AND FINE DUST, FOR CLEAN AIR

MERV 13 FILTERS AVAILABLE AS AN OPTION: CAPTURE MOLD SPORES. FINE DUST, BACTERIA AND SMOKE, FOR CLEANER AIR

#### Premium ECM PMSM **Motors with Built-In** Smart Technology

COME WITH PMSM ECM MOTORS. THE MOST EFFICIENT AND **RELIABLE ON THE MARKET** 

PROVIDE UP TO 60% ENERGY SAVINGS **ULTRA-QUIET PERFORMANCE** 

#### Versatile Installation **Options**

#### Wall Controls

Part no. VTTOUCHW

The Broan AI series wall controls line-up is modern, stylish and user-friendly. It has been designed to please both homeowners and installers. The line-up offers various controls that have been created to meet specific needs and different applications. This line-up is compatible exclusively with the AI series. Only the 20-40-60 control is compatible with previous series.

From the basic wall control to the most advanced fresh air system wall control ever put on the market, there is a wall control to suit your needs.

### **Main Controls**

#### -ADVANCED TOUCHSCREEN

111         mm         m1=           000000000000000000000000000000000000	configura technolog maintena	e most advanced wall control thanks to Virtuo Air Technology <sup>™</sup> . It features intuitive, fully urable modes via the touch screen. It is the perfect wall control for those who love logy. It offers bidirectional communication between the unit and the wall control to get detailed nance information. All unit settings are easy to program. The pairing with auxiliary control(s) le. The installer can also save a program to reuse it for a similar dwelling.			
BRGAN	SMART	SMART: The system will operate according to outdoor temperature and indoor temperature/humidity.			
VC0189	Ē	CONT: MIN, MED or MAX speed continuous exchange ventilation.			
	€∕	INT: Alternate between continuous exchange mode and standby or recirculation (if available) modes as per selected configuration. Speed and time are adjustable.			
	0	RECIRC (if available): Recirculate air inside the house at the selected speed.			
	ر( <b>ا</b> ل	TURBO: 4-hour MAX speed exchange ventilation then comes back to its previous mode.			
	۲	DEHUM/HUMIDISTAT: The wall control includes a programmable dehumidistat/ humidistat. The dehumidistat will deactivate if outside temperature exceeds 75°F (24°C).			
		SCHEDULING: It is possible to schedule the ventilation system operating modes for a week.			
	!J	The indicator lights up when filter maintenance is required and there is a detailed system error log for easier maintenance.			
	AWAY	When you are not home, the system provides minimum ventilation of your house.			
	STB	Standby mode			

# NOTE: The temperature displayed on ADVANCED TOUCHSCREEN wall control may vary by 9°F (more or less) compared to the outside temperature since the temperature sensor is located inside the unit to ensure a reading that optimizes Virtuo Air Technology<sup>™</sup> algorithms.

### Main Controls (Cont'd)

#### Part no. VTDEHUMW

		Part no. VAUTOW
e		gned to make customer's life easier. All basic features as well as the most popular modes ded with this wall control.
AUTO TURBO	AUTO	AUTO: The system will operate according to outdoor temperature.
BROAN	Ē	CONT: MIN, MED or MAX speed continuous exchange ventilation.
VC0184	€∕	INT: 20 min in MIN speed continuous exchange ventilation and 40 min in standby or recirculation (if available) modes as per selected configuration.
	Ø	RECIRC (if available): Recirculate air inside the house at MAX speed.
	ورزل	TURBO: 4-hour MAX speed exchange ventilation then comes back to its previous mode.

# AI SERIES Fresh Air Systems

Today's homes are better insulated and sealed than ever before—trapping moisture, stale air, and dust inside the house.

For almost 90 years, Broan has been the leader in indoor air quality. Thanks to our air exchangers, stale and polluted air is removed from homes. Get the ultimate in fresh air and energy efficiency with our **AI series**, featuring our exclusive **VIRTUO™ Air Technology**. VIRTUO only has one thing on its mind: the homeowner's comfort.

VIRTUO is the first artificial intelligence technology designed exclusively for ventilation systems. It offers optimal energy efficiency and superior air quality in all weather conditions, all year round. VIRTUO ensures your comfort in your home by constantly self-adjusting to changing indoor and outdoor conditions. When it detects a change, it automatically adjusts the operation mode of the unit to deliver the proper amount of fresh air with minimal energy consumption.

VIRTUO

# F

#### **Superior Air Filtration**

Al series units surpass any other on the market with their standard-issue high-grade MERV 8 filters, which capture lint, dust, pollen, dust mites, debris and spores for superior air quality and comfort. Even more powerful filtration is available with an optional MERV 13 filter upgrade.

#### **Energy-Efficient Motors**

Powerful, reliable and quiet motors ensure peace of mind while offering performance and durability. PMSM ECM motors also provide up to 60% energy savings compared to other units on the market.

VIRTUO provides you with optimal energy recovery and maximum savings and comfort, while maintaining your property's integrity and value.

#### Controls

When things are simple, everything is so much easier. Take full control of your Al series air exchanger with simple, easy-to-navigate controls. These stylish and user-friendly controls are designed to blend with most contemporary decors. Available in a range of options, the new controls have the right options to meet your needs.

\_\_\_\_\_\_

VTTOUCHW
