4-piece master packs or single packs.

Presenting the Broan® QK60 QuickKit™ Exhaust Upgrade.

There are around 70 million Broan and NuTone fans in homes that are ready for a 10-minute motor and grille upgrade. All that is needed to make that upgrade is a screwdriver. What's more, our new motor technology reduces sound levels from 6.0 to 2.5 Sones, depending on the original motor, and boosts air movement from 50 to 60 CFM without any electrical or ducting connections to worry about. The QK60 QuickKit™ upgrade is the fastest way to add a fresh look and increase ventilation in the bathroom.

Freshen up any bathroom in just 10 minutes.

The QK60 QuickKit™ installs in just a few easy steps.

Remove old grille, unplug and remove motor.

Snap in new motor to housing.

Plug motor into existing receptacle.

Attach grille springs to fan and push grille up against the ceiling.

QuickKit at a glance

- 10" x 10-1/8" bright white grille blends with any décor
- CLEANCOVER™ grille stays cleaner longer with fewer vent slots
- Hides existing dry wall cuts—no cutting required.
- Tool-less spring-mount grille
- Simple plug-in, permanently lubricated motor
- Quiet blower wheel
- Corrosion-resistant, galvanized motor plate
