

# UNIVERSAL ONE-PIECE REPLACEMENT FABRICS

For use on Carefree, Dometic and Solera awnings

## Carefree's Universal One-Piece fabrics handle all of your canopy replacement needs!

Meet customer's needs more quickly by offering one **universal** awning replacement canopy. Carefree's replacement canopy is a one-piece replacement with a unique two polycord design that fits as snug as the original. Because of this design, there is no unsightly gap between the awning and valance.

One polycord is sewn into the fabric while the other installs to the awning tube using the simple-to-use tool, securing the canopy tightly to the tube. This allows for easy adjustments to almost any size awning tube.

## Standard Vinyl Colors

**Shale Vinyl Fades** All fade fabrics have pattern on the top side of the canopy only.

Matching or White	Matching or White	Matching or White	Matching or White	Matching or White
Burgundy Shale Fade (6A)	Camel Shale Fade (6B)	Blue Shale Fade (6C)	Silver Shale Fade (6D)	Black Shale Fade (6E)

**Dune Vinyl Stripes** All striped fabrics have pattern on both sides of the canopy.

Matching or White	Matching or White	Matching or White	Matching or White	Matching or White
Sierra Brown Dune Stripe (8A)	Bordeaux Dune Stripe (8B)	Teal Dune Stripe (8C)	Black/Gray Dune Stripe (8D)	Ocean Blue Dune Stripe (8E)

## Classic Favorites

Black or White

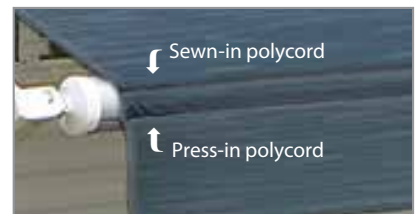

Checked Flag (9A)

**Premium Vinyls** All striped fabrics have pattern on both sides of the canopy.

Matching or White	Matching or White	Matching or White
Charcoal Premium (7A)	Chocolate Premium (7B)	Indigo Premium (7C)

Press-in polycord and tool

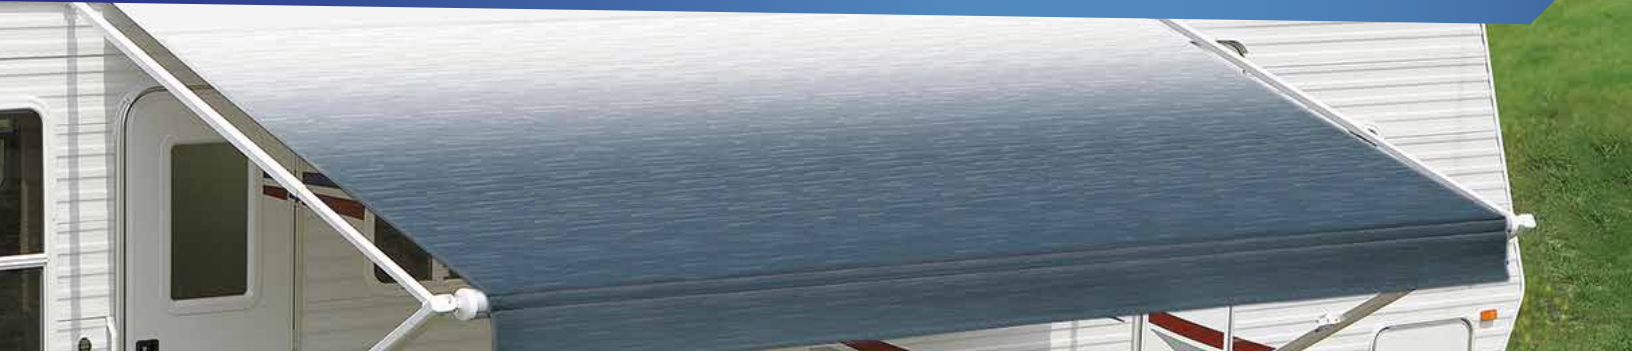

Sewn-in polycord

Press-in polycord

One-piece fabric construction combines the valance and canopy into a single piece and is secured to the roll bar with two different polycords for a tight fit on almost any size roll bar.

# UNIVERSAL ONE-PIECE REPLACEMENT FABRICS

## Available in all of Carefree's existing vinyl fabric options

### Standard Vinyl

Durable vinyl at an affordable price. Can be coordinated with window awnings at a scaled down pattern. Available in five Dune Stripe colors, five Shale Fade designs and Classic Checkered Flag pattern.

Also available in matching Weatherguard or all FLXguard color options.

### Fabric Protection Choices

#### • Vinyl Weatherguard

- Best priced option
- Heavy duty vinyl protection rolls up with awning
- Lightweight, strong fabric protection
- Standard with Premium Vinyl, Dune Stripes, Shale Fades, Classic Favorites and Full-View fabrics in black, white or matching fabric color

#### • FLXguard®

- Developed and offered exclusively by Carefree
- New, improved flexible proprietary polymer
- Sleek, contoured and polished for attractive appearance
- Tough as metal at a fraction of the cost
- Welded to the awning fabric...no seams or hems
- Available in black, white or satin

#### • AlumaGuard

- Aluminum metal wrap, automatically encloses fabric as the awning is retracted
- Patented 3-point, no-leak design and aluminum material provide maximum durability and protection
- Available in black, white and satin

#### • UniGuard

- This aluminum wrap is designed for maximum fabric protection and to provide a streamlined look to your awning while closed. UniGuard is one piece so it blends perfectly into the RV sidewall. Available in black, white or satin.

### Carefree Premium Vinyls

UV, weather and cleaner resistant, Premium is a 15oz-heavier duty vinyl. It is embedded with anti-microbial agents and double hemmed with lasting Gore® Tenara® thread.
