**INSTALLATION SPECIFICATIONS**

SF003pc

- Length of the awning is determined by measuring from center of arm to center of arm. Be sure the arms will not interfere with any compartments, lights, mirrors, doors etc.
  - At the awning rail the canopy will measure 10" shorter than the stated awning size.
  - Roller tube will measure 7" shorter than the stated awning size.
  - Alumaguard will measure 9" shorter than the stated awning size.
- If ordering straight hardware: Measure from the center of the awning rail to the floor line, where the bottom brackets will mount. Use this measurement and the ARMS APPLICATION CHART to select the proper arms.
- If ordering curved hardware: Use the ARMS APPLICATION CHART listed to select the proper arms. NOTE: Only available in Satin and White.
- Spirit FX, Fiesta & Simplicity can be upgraded to the Pioneer, Eclipse (12'-21') **or** Travel'r (12'-21'). Upgrades are not available with curved arm or Hi-Lo applications.
- Refer to the installation and operations manual.
