MILITARY STRENGTH

CGear was established in 2003 in Australia and holds a patent in over 100 countries for its sand-free Tech. Originally, the patented CGear fabric was developed for military use to reduce brown out during helicopter landings and takeoffs. In 2010, the first consumer product was introduced to the U.S. market and it rapidly became a favorite for beach lovers, campers, and outdoor enthusiasts of all kinds. Our patented dual layer weave means sand falls through and can't come back up.

SAND-FREE LIFE

Today, CGEAR exists to bring home-inspired comfort to nature lovers. As campers, surfers, hikers and picnickers, we know sand and dirt clings to everything, often following you home. Our unique patented dual-layer technology can be trusted to provide protection from nature's rougher side.

We want every part of the outdoors to be enjoyed, not endured. With a simple sweep of the hand, sand filters through two layers under the mat - where it stays. From sea level to serious altitude - whatever adventure you have in store - CGear brings indoor comfort outdoors.

SAND-FREE MATS

The Original Mat is the only outdoor mat on the market that features patented sand-free technology, and we only make it one way: to standards that reflect our military roots.

The Original – This mat started the sand-free revolution, and it remains in high demand as the ultimate sand-free ground pad, beach blanket, and equipment mat for serious outdoor adventures.

Military-Grade Construction – In addition to our patented technology, The Original Mat is quality made to ensure ultra-durability, quick drying time, and resistance to water, mold, and UV damage.

Heavy Duty D Rings – Take this product everywhere you go, and make sure it stays there with double-reinforced heavy-duty corner D Rings, perfect for staking down in extreme conditions.

The ORIGINAL SAND-FREE MAT

SANDLITE SAND-FREE MAT

SandLite is a softer and lighter version that delivers undeniable comfort and portability. The new SandLite Sand-Free Mat is as comfortable as any beach towel or picnic blanket, with the added benefit of its ability to repel dirt, sand and dust.

The SandLite Sand-Free Mat can be folded and rolled into a tidy bundle for easy carrying using the built-in fabric handle. SandLite Sand-Free Mat provides all of the comfort of home in the outdoors without any of the mess.

SWITCH SERIES

SWITCH SERIES - We understand the need to go outside but we also know the hassle of carrying too much stuff. To help you enjoy the outdoors with ease, we have developed a series of 2-in-1 products to make your excursions comfortable, easy and Sand-free.

CGear Sand-Free's first 2-in-1 product, The Switch Transitional Backpack - is a backpack providing up to 20L of space for carrying gear, that converts into a 3 x 3.5 foot sand-free mat.

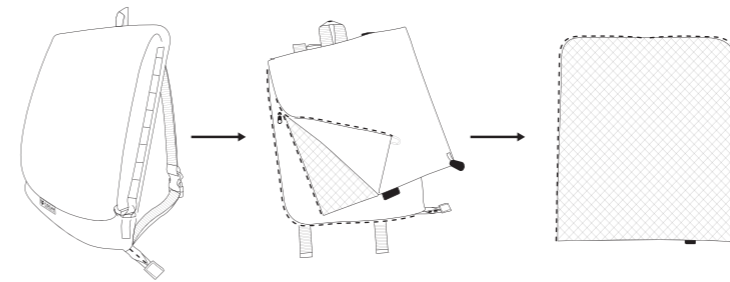

Our newest addition to the Switch Series, The MAG (Mat + Bag), is not only a 2-in-1 product but the first of our padded mats for extra comfort.

SAND-FREE TOWEL

The world's first-ever Sand-Free Beach Towel utilizes the latest generation of the company's patented sand, dirt and dust filtering fabric design.

The CGear Sand-Free Beach Towel solves many of the common complaints regarding the standard beach towel. No more sopping wet, sandy and heavy beach towels.

The CGear Sand-Free Beach Towel is fast drying and keeps sand where it belongs, on the beach.

SAND-FREE *Bags*

SAND-FREE BASE

Never take sand back home with you. All of our bags are designed with a Sand-Free base - which means that you can simply throw your items into the bag, just walk and shake. The sand will fall out of the bottom leaving you sand-free after your trip to the beach!

The CGEAR range of bags is all about simple but brilliant ideas. Our line of carry-wear does so much more than keep your stuff together. Each style is comfortable, thoughtfully designed and optimized for the outdoors. A CGEAR bag is striking, strong, and will protect the things you can't leave behind.
