

Tub/Shower Trim Kit for Delta in Brushed Nickel

This Shower trim kit allows you to replace your existing worn-out shower trim without replacing the existing shower valve. Danco designed compatibility features into this Delta Trim Kit that will fit Delta 1300/1400 Series and MultiChoice 13/14 Series cartridge style faucets as well as the Delta 600 Series ball style faucets. The Delta Shower trim kit offers you a choice of design between a clear acrylic handle and a finished metal handle. The plastic construction provides rust resistance and durability, while the stainless steel material provides reliable performance. This Shower faucet trim kit will replace the Delta 600 series with or without the push button diverter. This shower kit includes all the Delta replacement parts to complete your DIY project.

Model # 10004

1300/1400 Series and MultiChoice 13/14 Series cartridge style faucets as well as the Delta 600 Series ball style faucets.
