

Disposal Genie Garbage Disposal Strainer in Black

Protect yourself and your garbage disposal against costly damages with the Danco Disposal Genie™! The Disposal Genie™ is not a stopper. On the contrary, it sits in the disposer and allows small particles of food and water to flow freely into the disposal while preventing silverware and other items from slipping into the drain. The disposal can run freely with the genie in place. Use the handy rubber scraper to push food off the plates and down into the drain, keeping your hands away from the running disposal. The universal design fits all standard disposal openings.

Product Description

Protect yourself and your garbage disposal against costly damages with the Danco Disposal Genie™! The Disposal Genie™ is not a stopper. On the contrary, it sits in the disposer and allows small particles of food and water to flow freely into the disposal while preventing silverware and other items from slipping into the drain. The disposal can run freely with the genie in place. Use the handy rubber scraper to push food off the plates and down into the drain, keeping your hands away from the running disposal. The universal design fits all standard disposal openings.

- Constructed of tough, durable dishwasher safe plastic
- Prevents silverware and other larger items from slipping into drain
- Water and food particles flow freely into the garbage disposal
- Silicon scraper can be used to clean dishes and push particles into disposal
- Disposal can run freely with Genie in place
- Universal design fits most standard disposal openings (up to 3.125 inch)

Specifications
