

## CoolCoat™ must be preceded with Dicor Cleaner/Activator RP-CRP-Q TO ENSURE PROPER ADHESION.

- All cleaner/activator must be completely removed from roof prior to applying acrylic coating.
- All surfaces must be clean and free of residue or loose particles, degraded substrate, grease, oil, dirt or other contaminants.
- Surfaces shall be completely dry and frost free before coating. CoolCoat™ shall be applied in a minimum of 2 coats at a rate of 1 gallon per 125 sq. ft. (i.e., 8' X 30' roof takes 4 gallons).

**NOTE: ENTIRE 2 PART PROJECT MUST BE COMPLETED IN ONE DAY; INCLUDING CLEANER/ACTIVATOR APPLICATION, RINSING AND 2 COATS OF COOLCOAT™ EACH DRY TO THE TOUCH.**
