

SHALLOW MOUNT SPEAKERS

CODE	PEAK POWER
SM-F65CW	100 WATTS
SM-F65CB	100 WATTS
SM-F65OEM	100 WATTS

KEY FEATURES

SHALLOW MOUNT DESIGN

With a shallow mounting depth of just 24mm [15/16"], the SM Series are ideal for installation where mounting depth is limited, without compromising sound quality and performance normally associated with restrictive mounting depths.

SEALED ENCLOSURE DESIGN WITH QUALITY AESTHETICS

Specifically designed with a sealed, perfectly-tuned enclosure to produce quality audio reproduction that could normally not be achieved with a standard speaker of similar size in the same location.

The sealed enclosure design protects all components from damage making the SM Series capable of being installed in positions such as cabinets without needing rear speaker cups that often reduce sound quality and complicate installation.

In addition, concealed mounting holes allow for a more uniform, cleaner look.

RETROFITTABLE

The SM Series have a circular rear mounting style with fly leads (150mm) which fits easily into existing 6.5" standard speaker cutouts, resulting in no additional mounting holes required.

Note: No speaker wires supplied

IP65 WEATHERPROOF

The SM Series are rated IP65 for dust and water ingress protection, while also being subjected to accelerated UV and salt spray / fog testing to meet industry standards for both.

TWO COLOR OPTIONS

The SM Series are available with a high-quality Fabric grille (for indoor use). Two colors are available for the SM Series; White and Black, giving you options to match the speaker to the aesthetics of your RV or vessel.

FUSION PRODUCT INFO

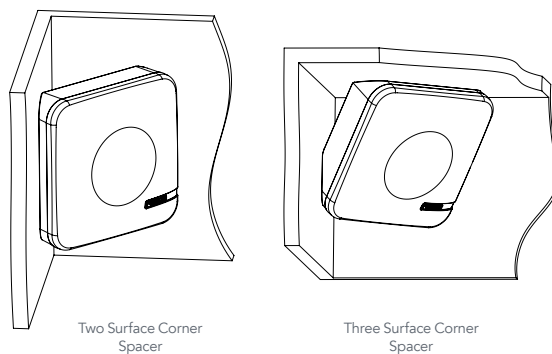

CODE	GARMIN PN	EAN-13 BARCODE	GIFT BOX DIMENSIONS
SM-F65CW	010-02263-10	0753759236595

SM-F65OEM (no grille)	010-02263-90	0753759236618	

ACCESSORIES

The SM Series can be installed in various positions to suit each situation. There are two optional accessory mounting spacers available to support this and provide flexibility.

TWO SURFACE CORNER SPACER: Designed for two surfaces perpendicular to each other, for example, a corner where two walls meet.

THREE SURFACE CORNER SPACER : Designed for three surfaces all perpendicular to each other, for example, a corner where the ceiling and two walls meet.

GRILLES

The SM Series have four grille options; Fabric White, Fabric Black, Plastic White and Plastic Black (The SM Series come standard with fabric grilles. Plastic grilles are OEM only.)

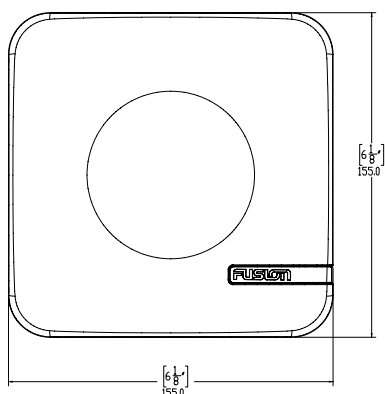

Note: Fabric grilles for indoor use.
