

FREQUENTLY ASKED QUESTIONS

How much weight will Magic Mounts Tape hold ?

Magic Mounts Tape is designed for lightweight applications such as posters, decorations, and artwork . Applying one piece of tape in the top corners of an 8 ½” x 11” sheet easily supports it. For larger or heavier items, apply additional pieces to the top and sides or cut longer pieces of Magic Mounts Tape ROLL and apply as needed

What surfaces work best ?

Magic Mounts Tape work best on smooth, hard, non porous surfaces like painted concrete, plasterboard, metal, plastic, wood, white boards and others

Are there surfaces that Magic Mounts will not work on ?

- Cold, oily, dusty and dirty surfaces will prevent Magic Mounts from bonding strongly
- Glass windows exposed to direct sunlight tend to break down the adhesive over time. Applying items for only a few weeks should be possible
- Many wall papers can split when an adhesive is applied. Some washable and laminated wall papers may be safe for Magic Mounts Tape. Test in a small area first
- Some painted walls, especially those with flat paint, can affect the holding power . Test in a small area first

Can Magic Mounts Tape be used more than once ?

While the tape is not meant to be used more than once, if the artwork is removed and the Magic Mounts Tape is not disturbed and still on the wall surface, another project can be adhered to it.

Is Magic Mounts Tape safe ?

Magic Mounts Tape has been used safely in the educational market for over 10 years. Teacher tested and approved. Magic Mounts Tape is acid-free
