

ME-RC | REMOTE CONTROL

Introduction

The ME-RC remote control is designed to be simple to use while offering multiple functions in one place. This remote works with Magnum Energy brand inverter/chargers and provides soft keys giving simple access to menus and a rotary encoder knob making it easy to quickly scroll through menus and select settings.

Features

- Large LCD screen.
- Quick access menus via a dial.
- Programmable readings.
- Non-volatile memory.
- Basic control of Magnum Energy brand inverter/chargers.
- Working with the ME-AGS-N Auto Gen Start, the ME-RC provides basic control of generators.
- Battery monitoring control when paired with the ME-BMK.
- Battery Profile Presets: If using the ME-RC Remote Control with MS Series, MSH-M Series, MSH-RV Series, or MMS Series inverter/chargers, easily choose from and set standard battery profiles, including Lithium Iron Phosphate (LFP), Gel, Flooded, AGM1, and AGM2.
