#### CAUTION — TIPS FOR REMOVAL OF OLD FAUCET:

Always turn water supply OFF before removing existing faucet or disassembling the valve. Open faucet handle to relieve water pressure and ensure that complete water shutoff has been accomplished.

Install this product with a backflow preventer as required by the local plumbing code.

Remove existing showerhead. Use wrench if necessary.

Hand tighten handheld bracket and washer to shower arm.

Hand tighten hose and washers to bracket and handheld shower.
