

Put an end to unhealthy air!

The IonizAIR™ II removes particles from the environment and quietly produces clean, healthy air.

It filters odors and airborne particles such as dust, pollen, and smoke by trapping them on the special stainless steel blades. The IonizAIR II produces negative ions which trap these positively charged particles and removes them from the environment. Ideal for getting rid of stubborn odors such as pets and cigarette smoke.

Unlike most air purifiers, the IonizAIR II doesn't rely on a fan so it's virtually silent and won't disturb you while sleeping or during a busy day at work.

- Purifies air within a range of up to 200 Square feet
- Virtually silent
- Compact & lightweight design
- Easy maintenance

Includes Fan Only Mode

Specifications:

Model:	Q1152
Air Flow Rate:	600 cF/h
Active Oxygen Output:	<0.05 ppm
Power Consumption:	<5W
Power Supply:	12VDC Adapter
Area Covered:	up to 200 sq. F
Weight:	1 lbs. 6 oz.
Dimensions:	3.75" x 4.75" x 13.25"
