SOLERA: 18V POWER

18V Battery Power Pack

Introducing the industry first Solera 18V Power Awnings! Upgrading to a power awning has never been easier! An industry first, the Solera 18V Power Pack features a unique, rechargeable battery that fits right inside your Solera Power Awning arm and comes with everything you need to connect to the motor wire. This is the perfect awning for DIY RVers who don't want to spend the installation dollars to wire a 12V awning into their RV. Better yet, the Solera 18V Power awning extends and retracts faster than other power awnings. Not that you're in a hurry, but who wouldn't want the fastest awning on the planet?

SOLERA: 18V POWER FEATURES

- Save 1-2 hours of additional installation expense as there is no need to wire this directly in to your RV's power supply
- Waterproof switch offers easy, push-button operation
- Auto rain dump feature activates when rain water pools in the canopy, automatically lifting the awning arms to release the pooled water
- Operates 22-25 times before needing a simple plug-in recharge
- Exclusive, quick and simple independent pitch adjustment for relief from the sun at any point in the day
- Faster extend and retract time
- Includes 110V charging kit
- Easy DIY installation; no internal wiring needed to the RV's main power source
- Easy access manual override, an industry first!* In case of power failure, simply use a power drill to extend or retract your awning in case of power failure
- **NEW!** Universal Solera 18V Power Hardware option allows for an easy UPGRADE on Dometic® (A&E)** and Carefree*** manual or power awnings

SOLERA: 18V POWER HARDWARE

TALL ARM

Adjustable Pitch

- Requires 69" unobstructed area from awning rail straight down
- Requires min. clearance of 2-1/2" between awning rail and top of entry door
- This hardware will roll the awning out to a pre-set pitch for maximum shade and ideal rain runoff
- Two-position pitch

Easy DIY Installation!

UNIVERSAL ARMS AVAILABLE

Our Universal options fit standard Carefree and Dometic® patio awning roller bars making Solera the Universal easy choice.

See page 31 to order

RV Doctor's Tip: "Upgrading to a power awning from a manual awning can be pretty labor intensive. Wiring the awning into the RV's main power source can take a technician quite some time. When I saw the new Power Pack option from Lippert Components, my first thought was, "Why didn't I think of that?" The Solera 18V Power Pack option is most definitely the easiest way to get out of the Stone Age and upgrade to a power awning, folks."

*Manual override not available on 2017 Forest River Cherokee

**Universal Hardware fits the following Dometic® 8' extension awnings models: 8500, 9000, 9100, Sunchaser and Weather Pro

***Universal Hardware fits the following Carefree 8' extension awnings models: Spirit, Fiesta, Simplicity Traveler and Eclipse

SOLERA: 12V POWER

12V Push-Button Control

Isn't it time you made the switch from a manual, spring-assisted awning to something easier? How many years have you daydreamed of a simplified camp setup? Stop wasting time and energy with manual awnings and POWER UP to a Solera 12V Power Awning. Featuring a premium, heavy-duty canopy and a one-handed adjustable pitch projection, the Solera 12V Power Awning allows for simple, effortless setup. With the push of a button, the awning's direct drive motor easily extends or retracts your awning's canopy. Simple, stress-free and with manual override functionality, the 12V Push-Button Control Awning takes the hassle out of camp setup and all but eliminates campsite setup frustrations.

SOLERA: 12V POWER FEATURES

- Push-of-a-button, automatic operation from inside or outside of your RV
- Auto rain dump feature activates when rain water pools in the canopy, automatically lifting the awning arms to release the pooled water
- Easy access manual override, an industry first!* In case of power failure, simply use a power drill to extend or retract your awning in case of power failure
- Exclusive, quick and simple independent pitch adjustment for relief from the sun at any point in the day
- With a range of unique awning styles, sizes and options including awning lights, speakers and multiple fabric and hardware color options, Solera Power can offer you so much more than shade and shelter
- **NEW!** Universal Solera Power Hardware option allows for an easy UPGRADE on Dometic® (A&E)** and Carefree®*** manual or power awnings

SOLERA: 12V POWER HARDWARE

SHORT ARM

Adjustable Pitch

- Requires 60-1/2" unobstructed area from awning rail straight down
- Requires min. clearance of 6" between awning rail and top of entry door
- This hardware will roll the awning out to a pre-set pitch for maximum shade and ideal rain runoff
- Two-position pitch

TALL ARM

Flat Adjustable Pitch

- Requires 69" unobstructed area from awning rail straight down
- Requires min. clearance of 2-1/2" between awning rail and top of entry door
- This hardware will roll the awning out flat to allow for clearance over slides, and allows quick and easy pitch adjustment at either side of the awning
- Infinite adjustment

XL ARM XL

See page 31 to order

RV Doctor's Tip: "One RVer recently asked me, "I have an old Dometic power awning. Is it worth switching to the Solera Power Awning?" The short answer is, yes. There are several advantages to a Solera Power Awning that the other two brands don't offer, but one stands out to me above the rest. How many times have you run your batteries dry? I know I have. If this happens when your awning is out, you could have a problem on your hands, but not with Solera. With it's easy to use manual override function, simply roll your awning back in with a power drill and you're ready to hit the road. The other brands' manual operation isn't so easy. There's a great video on YouTube showing all three awnings being manually retracted – you should check it out. The video will show you that not all power awnings are created equal."

*Manual override not available on 2017 Forest River Cherokee

**Universal Hardware fits the following Dometic® 8' extension awnings models: 8500, 9000, 9100, Sunchaser and Weather Pro

GO LARGE

SOLERA: XL 12V POWER AWNING

Extended Shade and Relief From the Sun

The Solera XL Awning features an industry first 9' 8" projection, making it perfect for taller RVs and RVs with a slide-out under the awning. Class A motorhomes, fifth-wheel and toy hauler RVs continue to get taller and taller, so it can be difficult to get the shade you need from a standard 8' projection awning. Not only that, but many brands now feature slide-outs under the awning, which can really limit your shaded patio area. Choose a Solera Power XL Awning to enjoy 20% more shade than a standard 8' projection pitch! Featuring an adjustable projection pitch Sleeve, the Solera XL Awning can be pitched at multiple points to block the sun at any time of day. The two-stage projection pitch arms also provide added strength and support for your awning, making the XL Awning one of the best values on the market.

THE FIRST! **XL 9'8"** PROJECTION

SOLERA: XL 12V POWER FEATURES

- 9'8" projection offers 20% more shade than standard 8' projection awnings
- Push-of-a-button, automatic 12V operation from inside or outside your RV
- Adjustable two-position pitch arms provide added strength and offer multiple adjustments, offering shade at any time of day

NOTES: Solera XL arms require XL roller assemblies.
Vinyl and Acrylic with Solera Shield not available on XL awnings.
18V Battery Power Pack not available for Solera XL awnings.

RV Doctor's Tip: "Every year, I walk the National RV Show in Louisville, and the RV's always seem to be getting bigger, taller and have more slide-outs. 8' projection awnings just don't cut it in some cases anymore, so the Solera Power XL Awning is a perfect solution for those RV owners. **Solera also offers the Awmbrella tensioner bars in XL sizes too, so your awning fabric can be kept tight and arched while you're at the campsite.**"

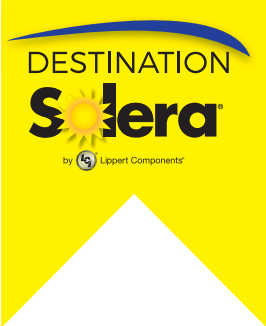

SOLERA: DESTINATION
Big Carport-Sized Shade & Shelter

Destination campers (or seasonal campers) who setup camp for extended stays will love the Solera Destination Awning. With 20 percent more shaded area compared to standard 8' projection awnings, the 9' 8" Solera Destination Awning is the ultimate solution when you need added living space. Not only does the Destination awning provide extra shade, it also comes with a center ground support, a Solera Shield to protect the vinyl canopy and Solera Awnbrellas™ to keep the fabric arched and taut to minimize wind flap and enable rain runoff.

SOLERA: DESTINATION FEATURES

- 9'8" projection offers 20% more shade than standard 8' projection awnings
- Manual spring assist operation
- Includes Solera Awnbrella fabric tensioning bars
- Includes center ground support bar
- Includes standard Solera Shield fabric protector
- Arms detach from bottom bracket and easily swing to "carport" position providing varied pitch options to block the sun at any time of the day

UPGRADED STANDARD FEATURES!

SOLERA: AWNBRELLA

SOLERA: SHIELD

SOLERA: GROUND SUPPORT

RV Doctor's Tip: "Seasonal campers, take note. The Solera Destination awning is what you've been waiting for. Not only do you get 20% more shade, but the included Awnbrella tensioning arms allow you to rest easy. Wind and rain are no longer a big deal. The Awnbrella arms keep the fabric tight and arched so wind won't catch the awning as easily and water runs off without having to pitch the awning."

UPGRADE

HYBRID
Solera
by Lippert Components

SOLERA: HYBRID

Sets Up & Stores Automatically as you Crank

The Solera Hybrid Awning combines the best of both worlds. Featuring a simple crank operation, the Solera Hybrid Awning extends and retracts just like a Power Awning, except you supply the power. The next best thing to a fully powered awning, the Hybrid allows you to skip the potential hassle and installation cost of running wiring and acts as a do-it-yourself upgrade from a manual spring-loaded awning.

SOLERA: HYBRID FEATURES

- Simple crank operation makes for fast one-step setup
- Auto rain dump feature – if water pools in the canopy, the arms will release it
- Exclusive, quick and simple independent pitch adjustment – enjoy full or partial extension
- Designed to provide optimum pitch when used over slide-outs
- Includes crank wand
- **NEW!** Universal Solera Hybrid hardware allows for an easy and inexpensive upgrade to Dometic® (A&E)* and Carefree** spring-assisted patio awnings

SOLERA: HYBRID HARDWARE

SHORT ARM

Adjustable Pitch

Gary Bunzer
The RV Doctor &
RV Hall of Fame Member

RV Doctor's Tip: "Traditional spring-assisted awnings have been around forever. Veteran campers can set these awnings up in a matter of minutes, but to those new to camping, setup can be a little difficult. The Solera Hybrid Awning is perfect for those campers who don't want to make the jump to a power awning, but also want something easier to extend and retract. If this is the case, press the "easy button," and get yourself a Solera Hybrid. You get the best of both worlds!"

*Universal Hardware fits the following Dometic® 8' extension awnings models: 8500, 9000, 9100, Sunchaser and Weather Pro

**Universal Hardware fits the following Carefree 8' extension awnings models: Spirit, Fiesta, Simplicity Traveler and Eclipse

SOLERA: CLASSIC

Traditional Manual Spring Roll Up

UNIVERSAL

FIX IT

UPGRADE

CLASSIC
Solera
by Lippert Components

SOLERA: CLASSIC

Traditional Manual Spring Roll Up

Classic design, classic operation. The Solera Classic's manual spring-assisted design has been an industry favorite for decades. The rugged Solera Classic extends and retracts in just a few easy steps. Simply release the travel locks on each arm, loosen the rafter knobs, use the pull cane to unlock the roller, then hook the pull strap and walk it out to unroll the awning. Once extended, set the tension, tighten rafter knobs and raise the awning arms to whatever pitch you want for shade and water runoff. You can also detach the arms from the bottom bracket and rotate them to a vertical "carport" position. This carport position makes it easy to attach accessories like the Solera Screen Room and Solera Family Room™.

SOLERA: CLASSIC FEATURES

- Traditional manual spring-assisted roll up operation
- Arms detach from bottom bracket and easily swing to “carport” position providing varied pitch options to block the sun at any time of the day
- Great value for replacing any Dometic®, Carefree or Solera® spring-loaded manual awning
- Simple standard manual operation: Unlock with included wand, unroll with strap, set the braces and raise the arms
- **NEW!** Universal hardware now makes Solera the easy choice for repairing or replacing your old spring-assisted patio awning. Solera Universal Classic Hardware fits into Dometic® (A&E)* and Carefree** roller assemblies with ease.

SOLERA: CLASSIC HARDWARE

SHORT ARM

- Rail to floor line 63"-68" from awning rail straight down

STANDARD ARM

- Rail to floor line 68"-81" from awning rail straight down

LONG ARM

- Rail to floor line 81"-96" from awning rail straight down

UNIVERSAL ARMS AVAILABLE

Our Universal options fit standard Carefree and Dometic® patio awning roller bars making Solera the Universal easy choice.

See page 31 to order

Gary Bunzer
The RV Doctor &
RV Hall of Fame Member

RV Doctor's Tip: "Most RVers love these spring-assisted awnings because of the “carport” set-up option. This is great if you plan on spending extended periods of time at the campsite. One potential issue here is that when the legs go all the way to the ground, there is no pitch adjustment option, so water pooling can become an issue. No problem there folks – the Solera Awmbrella tensioning arms are easy to install and keep your awning fabric taut and arched so water slides right off the awning. Problem solved!"

* Universal Hardware fits the following Dometic® 8' extension awnings models: 8500, 9000, 9100, Sunchaser and Weather Pro

** Universal Hardware fits the following Carefree 8' extension awnings models: Spirit, Fiesta, Simplicity Traveler and Eclipse

SOLERA: AWNBRELLA

Give your awning the extra support it needs

Awnbrella™

UNIVERSAL UPGRADE

SOLERA: AWNBRELLA

Give your awning extra support and a better angle for water runoff with the Solera Awnbrella. Perfect for destination campers who like to leave the awning extended for long periods, the patented rust-resistant aluminum bows hold fabric taut and arched so water doesn't pool and debris can easily run off. Now you won't have to camp with one end of your awning pitched lower than the other end. Solera Awnbrella's also complement Solera Screen Rooms and Family Rooms.

FEATURES

- Adjustable rust-resistant aluminum bows
- Keeps canopy from flapping in the wind
- Increases clearance over entry door
- Prevents canopy from sagging
- Stops water from pooling
- Enhances appearance

UPGRADE

SOLERA: SHIELD

The built-in Solera Shield is available on replacement slider and patio awning fabrics. It provides elegant and practical protection for your Solera vinyl or acrylic awning canopy. As the awning retracts, the aluminum Solera Shield automatically rolls up around the fabric to protect it against the elements during travel. Be sure to order your Solera Shield to match your hardware.
See page 39 to order

NOTE: Solera Shield not available on Solera XL awnings

UNIVERSAL UPGRADE

SOLERA: GROUND SUPPORT

Commonly lost or damaged, Solera Ground Support bars fit all three major awning brands. This aids you in support for the awning roller and allow more stability when you add screen rooms and family rooms to your awning. Stabilize your awning and prevent the roller from sagging with Solera Ground Support.
See page 39 to order

UPGRADE

SOLERA: AWNING CRADLE SUPPORT

The Awning Cradle Support works with power or manual awnings to support the roller assembly when in the travel position; support automatically accepts and releases the roller assembly as it extends and retracts.
See page 39 to order

SOLERA: SHADES AND ROOMS

Front, Side and Super Shades. Screen and Family Rooms

SOLERA: CLASSIC FRONT AND SIDE SHADES

Perfect for all awnings, the one-piece, black Solera Front Shade is easy to slide into your awning roller tube whenever you need a little extra shade, privacy or wind block. Solera Front Shade panels are available in 8', 10', 13', 15', 17' & 19' widths, each with a 6-foot screen height. The Solera Front Shade kit includes spikes and tie downs so you can secure it to the ground. The entire kit stores neatly in the included storage bag when not in use. Front and side shades sold separately.

Available in black plastic only.

SOLERA: SUPER SHADE

Many of the larger RV's today have patio awnings that are too high to reach when they are fully extended, and that's why we created the Solera Super Shade! The two-piece, black Solera Super Shade features a standard 6-foot shade height that easily zips into a Super Shade extension and can be permanently installed into your awning's roller tube.

NOTE: Must order both Super Shade Side Panels and Super Shade of same drop length to make a complete Super Shade kit. Solera Super Shade is available for standard 8' extension patio awnings only; not compatible with Solera XL awnings. Available in black plastic only.

The Super Shade extension can be ordered in five sizes that would provide either a 6', 7', 8', 9' or 10' total screen height. Order the Super Shade extension height based on how high your patio awning is from the ground to the roller tube while fully extended. For example, if your patio awning measures 10' high from ground to roller tube, order the 10' Super Shade. The Solera Super Shade comes in 10', 13', 15', 17' & 19' widths.

Front, Side and Super Shades. Screen and Family Rooms

SOLERA: FAMILY ROOM™

Turn the space under your awning into an enclosed outdoor patio with the Solera Family Room kit. Add up to 160 square feet of enclosed space so you can enjoy meals minus pesky insects. Or roll down the all-weather panels and use as a cozy sleeping area for kids.

FEATURES

- Lightweight gray fabric complements any RV color scheme
- Fits most 10'–21' manual and power awnings
- Accommodates RVs with awning rail-to-ground measurement up to 130"
- Fits 8' extension Solera, Carefree and Dometic® awnings
- Measure center of arm to center of arm to determine room size needed

SOLERA: SCREEN ROOM

Keep the bugs out and enjoy the breeze with the Solera Screen Room. Its neutral tan material helps to block out extra heat, making the Solera Screen Room perfect for outdoor dining, board games and social gatherings on hot summer days.

FEATURES

- Fits most 10'–21' manual and power awnings
- Accommodates RVs with awning rail-to-ground measurement up to 130"
- Fits 8' extension Solera, Carefree and Dometic awnings
- Measure center of arm to center of arm to determine room size needed

UNIVERSAL SHADES AND ROOMS

Our Universal shades and rooms fit the following:

- Solera 8' Extension Classic, Hybrid and 12V Power
- Carefree 8' Extension Spirit, Fiesta, Simplicity, Traveler and Eclipse Awnings
- Dometic® (A&E) 8' Extension 8500, 9000, 9100, Sunchaser and WeatherPro Awnings

ORDERING: UNIVERSAL AWNING HARDWARE AND ROLLER ASSEMBLIES

Solera 18V Power | Solera 12V Power | Solera Hybrid

HOW TO ORDER: UNIVERSAL 18V POWER, 12V POWER AND HYBRID

1. Measure the area where you want to mount the Solera awning, making sure the awning will not interfere with windows and doors.
2. Taking that measurement, order that size Awning Roller Assembly, and choose your desired vinyl color. Use the Awning Roller guide for 12V Power, Hybrid, & Power 18V Battery to select the correct part number.
3. Measure the distance from the awning rail down the side wall to order the correct arms from the arm guide. You will need to have 1 part number for the awning roll and 1 part number for the hardware selected for a complete order.

ORDERING: WINDOW AWNING HARDWARE AND ROLLER ASSEMBLIES

Window awning hardware and roller assemblies

HOW TO ORDER: WINDOW AWNINGS

1. Measure outside frame to outside frame of the window you desire to cover.
2. Round up to the next size. Example: a 50" window use a 54" window awning base on the chart provided.
3. Measure the height of the window. If the window measures 32" or greater, use the XL model arms. You will need to have 1 part number for the window awning roll and 1 part number for the hardware selected for a complete order.

ORDERING: UNIVERSAL FIT SHADES AND ROOMS

Front, Side and Super Shades. Screen and Family Rooms

HOW TO ORDER: SHADES AND ROOMS

1. 1.Measure center arm to center arm of the RV awning and order that size. Example: if your awning measures 15' order a 15' room. 1 part number will supply you the correct product.

Quick Tip: The biggest mistake when ordering a Screen Room or Family Room is usually measuring the awning fabric and not measuring center arm to center arm. If you measure by fabric, the room will arrive one foot too short.

ORDERING: **UNIVERSAL REPLACEMENT FABRIC**

HOW TO ORDER: **UNIVERSAL REPLACEMENT FABRICS**

1. Measure center of arm to center of arm of the patio awning to correctly order that size fabric.
2. Choose the color of the fabric you desire.
3. Use the chart provided and your measurement of center arm to center arm and vinyl color desired to select your part number. Example: If your measurement from center arm to center arm is 15' then you would select 15' and choose your desired color of vinyl. 1 part number will supply you the correct product.

Quick fact: Do not order fabric replacement size based on the actual awning fabric width as it will arrive too short

SELECT FROM THESE PATIO AWNING REPLACEMENT CHOICES:

All vinyl

- Heavy-duty 13.5 oz fabric
- Cold-crack tested to -25° F
- Nine color choices

Vinyl Canopy with Solera Shield

- Painted Solera Shield is available in black or white

NOTE: Solera Shield not available on XL Awning

Woven Acrylic Canopy with Solera Shield

- Woven fabric is breathable, so the area under the canopy may stay cooler than vinyl canopies
- Six color choices
- Mildew-resistant fabric
- Comes complete with Solera Shield

NOTE: Solera Shield not available on XL Awning

Ordering Replacement Arms

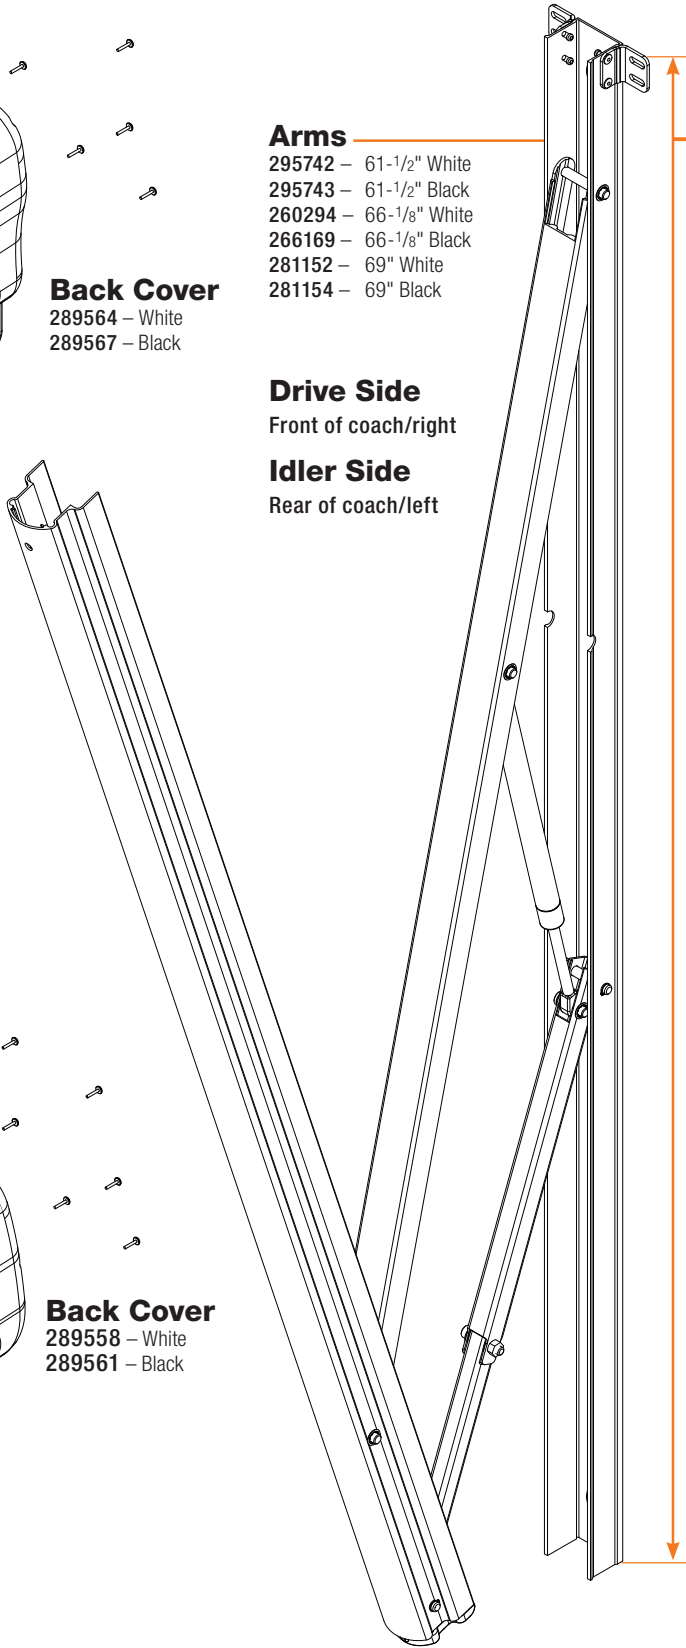

There are three types of Solera replacement arms. These arms are universal to both power and manual awnings. Simply measure the length of the wall-mount extrusion from top to bottom.

- Short style arms measure 60-1/2"
- Pitched style arms measure 66-1/8"
- Flat style arms measure 69"

2016 AWNINGS & ACCESSORIES

LIPPERT
COMPONENTS®

➤ SO MUCH MORE THAN SHADE & SHELTER

Solera Awnings by Lippert Components offer so much more than shade and shelter with a range of unique awning styles, sizes and options including awning lights, speakers and multiple fabric and hardware color options to compliment the colors in your RV's exterior graphics. Nothing gives an RV a more noticeable facelift than installing a new awning or replacing the awning fabric, so choose the best – choose Solera.

AWNINGS

CHOOSE FROM FOUR INNOVATIVE SOLERA AWNING MODELS

SOLERA: **POWER**
12V Push-Button Control

SOLERA: **CLASSIC**
Traditional Manual Spring Roll Up

SOLERA: **HYBRID**
Sets Up & Stores Automatically as you Crank

SOLERA: **DESTINATION**
Carport-Sized Shade & Shelter

SOLERA POWER

NOTE: All awnings available from 10' to 21' widths in 1' increments

SOLERA: **POWER** 12V Push-Button Control

Isn't it time to replace your old manual awning? Upgrade to enjoy quick and easy setup with a premium Solera Power Awning. The top bracket fits right over the mounting holes from your old awning and the kit includes a label to cover mounting holes from the old bottom bracket. Choose from a wider range of sizes and fabric and hardware colors than any other RV awning brand under the sun.

- Exclusive, quick and simple independent pitch adjustment

- Enjoy full or partial extension

Additional Features

- Auto rain dump feature — if water pools in the canopy, the arms will release it
- Designed to provide optimum pitch when used over slide-outs
- Easy access with optional manual override
- Super easy operation: operates with push button mounted inside RV

Solera® Power Hardware

Short Arm, Fixed Pitch

- Requires 60-1/2" unobstructed area from awning rail straight down
- Requires min. clearance of 13-1/2" between awning rail and top of entry door
- This hardware will roll the awning out to a pre-set pitch for maximum shade and ideal rain runoff

Tall Arm, Flat Adjustable Pitch

- Requires 69" unobstructed area from awning rail straight down
- Requires min. clearance of 2-1/2" between awning rail and top of entry door
- This hardware will roll the awning out flat to allow for clearance over slides and quick and easy pitch adjustment at either side of the awning

Standard Arm, Adjustable Pitch

- Requires 66-1/8" unobstructed area from awning rail straight down
- Requires min. clearance of 11" between awning rail and top of entry door
- This hardware will roll the awning out at a pitch and allow quick and easy pitch adjustment at either side of the awning

XL Arm, Flat Adjustable Pitch

- Requires 78" unobstructed area from awning rail straight down
- Requires min. clearance of 4-1/2" between awning rail and top of entry door
- This hardware is configured to operate a 9'8" projection canopy; it will roll the awning out flat to allow for clearance over slides and quick and easy pitch adjustment at either side of the awning

Options

- Wide selection of vinyl and woven acrylic fabrics available with aluminum Solera Shield®
- Optional Solera Power Pack perfect for DIY installs — eliminates wiring to RV
- Choose the XL 9'8" projection canopy — perfect shade for tall motorhomes and fifth-wheel RVs
- Choose from 8 premium hardware colors to match your RV graphics (pg. 16)

SOLERA XL POWER AND XL HYBRID AWNINGS

SOLERA XL POWER AND XL HYBRID AWNINGS

The Solera XL Awning features a 9-foot-8-inch projection making it perfect for taller RVs and RVs with a slide-out under the awning. Class A motorhome, fifth-wheel and toy hauler RVs keep getting taller and taller, so it can be hard to get the shade you need from an 8-foot awning. Not only that, but many brands now feature slide-outs under the awning, which can really limit your shaded patio area. Choose an XL Power or Hybrid Solera Awning to enjoy 20 percent more shade where you need it most!

XL Power Awning Arm Kit Includes:

- Two Arms
- Switch & Wiring Harness
- Fasteners

**Power Pack not available for Solera XL Awnings.*

XL Hybrid Awning Arm Kit Includes:

- Two Arms
- Crank rod
- Fasteners

**Power Pack not available for Solera XL Awnings.*

**20%
MORE SHADE**

XL **REGULAR**

SOLERA: **XL**

- Perfect for taller RVs with slide-outs under the awning
-

Enjoy 20% more shade than a standard 8' projection awning

SOLERA HYBRID

*NOTE: All awnings available from 10' to 21'
widths in 1' increments*

SOLERA: **HYBRID** Sets Up & Stores Automatically as you Crank

The Solera Hybrid Awning is the next best thing to a power awning. Simple crank operation makes setting up camp fast and easy, and the Hybrid locks into place when retracted for safe travel. Skip the hassle and cost of wiring and enjoy an easy do-it-yourself upgrade from a manual awning. The top bracket fits right over the mounting holes from your old awning and the kit includes a label to cover mounting holes from the old bottom bracket. Choose from a wider range of sizes and fabric and hardware colors than any other RV awning brand under the sun.

- Deploys and retracts just like a Power Awning, except you supply the power – the awning opens, raises itself into camping position and lowers for secure travel as you crank

- Enjoy full or partial extension

Additional Features

- Auto rain dump feature – if water pools in the canopy, the arms will release it
- Exclusive, quick and simple independent pitch adjustment
- Designed to provide optimum pitch when used over slide-outs

Solera® Hybrid Hardware

Short Arm, Fixed Pitch

- Requires 60-1/2" unobstructed area from awning rail straight down
- Requires min. clearance of 13-1/2" between awning rail and top of entry door
- This hardware will roll the awning out to a pre-set pitch for maximum shade and ideal rain runoff

Standard Arm, Adjustable Pitch

- Requires 66-1/8" unobstructed area from awning rail straight down
- Requires min. clearance of 11" between awning rail and top of entry door
- This hardware will roll the awning out at a pitch and allow quick and easy pitch adjustment at either side of the awning

Tall Arm, Flat Adjustable Pitch

- Requires 69" unobstructed area from awning rail straight down
- Requires min. clearance of 2-1/2" between awning rail and top of entry door
- This hardware will roll the awning out flat to allow for clearance over slides and quick and easy pitch adjustment at either side of the awning

XL Arm, Flat Adjustable Pitch

- Requires 78" unobstructed area from awning rail straight down
- Requires min. clearance of 4-1/2" between awning rail and top of entry door
- This hardware is configured to operate a 9'8" extension canopy; it will roll the awning out flat to allow for clearance over slides and quick and easy pitch adjustment at either side of the awning

Options

- Wide selection of vinyl and woven acrylic fabrics available with aluminum Solera Shield®
- Choose the XL 9'8" projection canopy – perfect shade for tall motorhomes and fifth-wheel RVs
- Choose from 8 premium hardware colors to match your RV graphics (pg. 16)

SOLERA CLASSIC

SOLERA: **CLASSIC** Traditional Manual Spring Roll Up

The rugged spring-loaded Solera Classic extends and retracts in just a few easy steps. Simply release the travel locks on each arm, loosen the rafter knobs, use the pull cane to unlock the roller, then hook the pull strap and walk it out to unroll the awning. Once extended, set the tension, tighten rafter knobs and raise the awning arms to whatever pitch you want for shade and water runoff. You can also detach the arms from the bottom bracket and rotate them to a vertical “carport” position. This carport position makes it easy to attach accessories like the Solera Screen Room and Solera Family Room™.

- Great value for replacing any brand spring-loaded manual awning

Additional Features

- Arms detach from bottom bracket and easily swing to “carport” position
- Brackets fit right over the mounting holes from your old awning

Solera® Classic Hardware

Short Arm

- Requires 60-1/2" unobstructed area from awning rail straight down

Standard Arm

- Requires 66-1/8" unobstructed area from awning rail straight down

Classic Long Arm

- Requires 69" unobstructed area from awning rail straight down

Options & Accessories

- Wide selection of vinyl and woven acrylic fabrics available with aluminum Solera Shield®
- Choose the Solera Awmbrella™ for extra canopy support and better angle for water runoff (pg. 25)
- Add Solera shades for extra shade, privacy and wind block (pg. 27)
- Choose from 8 premium hardware colors to match your RV graphics (pg. 16)

SOLERA DESTINATION

**DON'T JUST
REPLACE.
EXPAND
YOUR
OUTDOOR
LIVING
AREA BY
20%
with the
SOLERA
DESTINATION
9'8" projection
canopy!**

SOLERA: DESTINATION **Big Carport-Sized Shade & Shelter**

Destination campers (or seasonal campers) who set up camp for extended stays will love the Solera Destination Awning because it provides an additional 20 percent more shaded outdoor area. Not only does the Solera Destination Awning provide a 9-foot-8-inch projection canopy, it also comes with a center ground support, a Solera Shield to protect the vinyl canopy and a Solera Awnbrella™ to keep the fabric arched and taut to minimize wind flap and enable rain runoff.

SOLERA DESTINATION

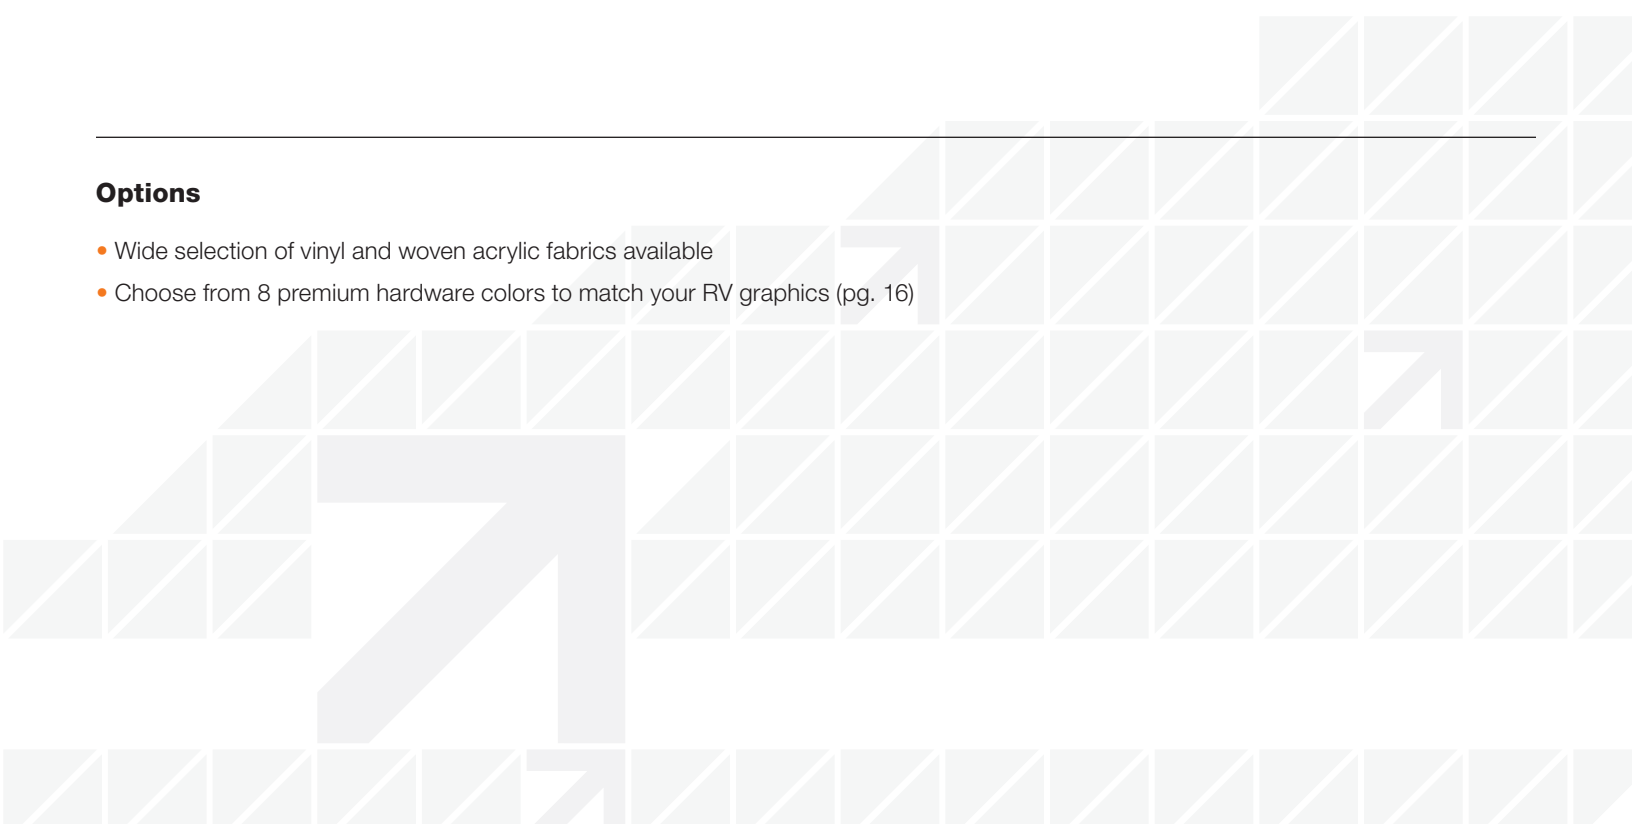

- Operates like any manual spring roll up awning — basically it's a jumbo Solera Classic Awning
- Large 9'8" projection canopy features the aluminum Solera Shield® and the Solera Awnbrella™ (pg. 25)

Solera® Destination Hardware

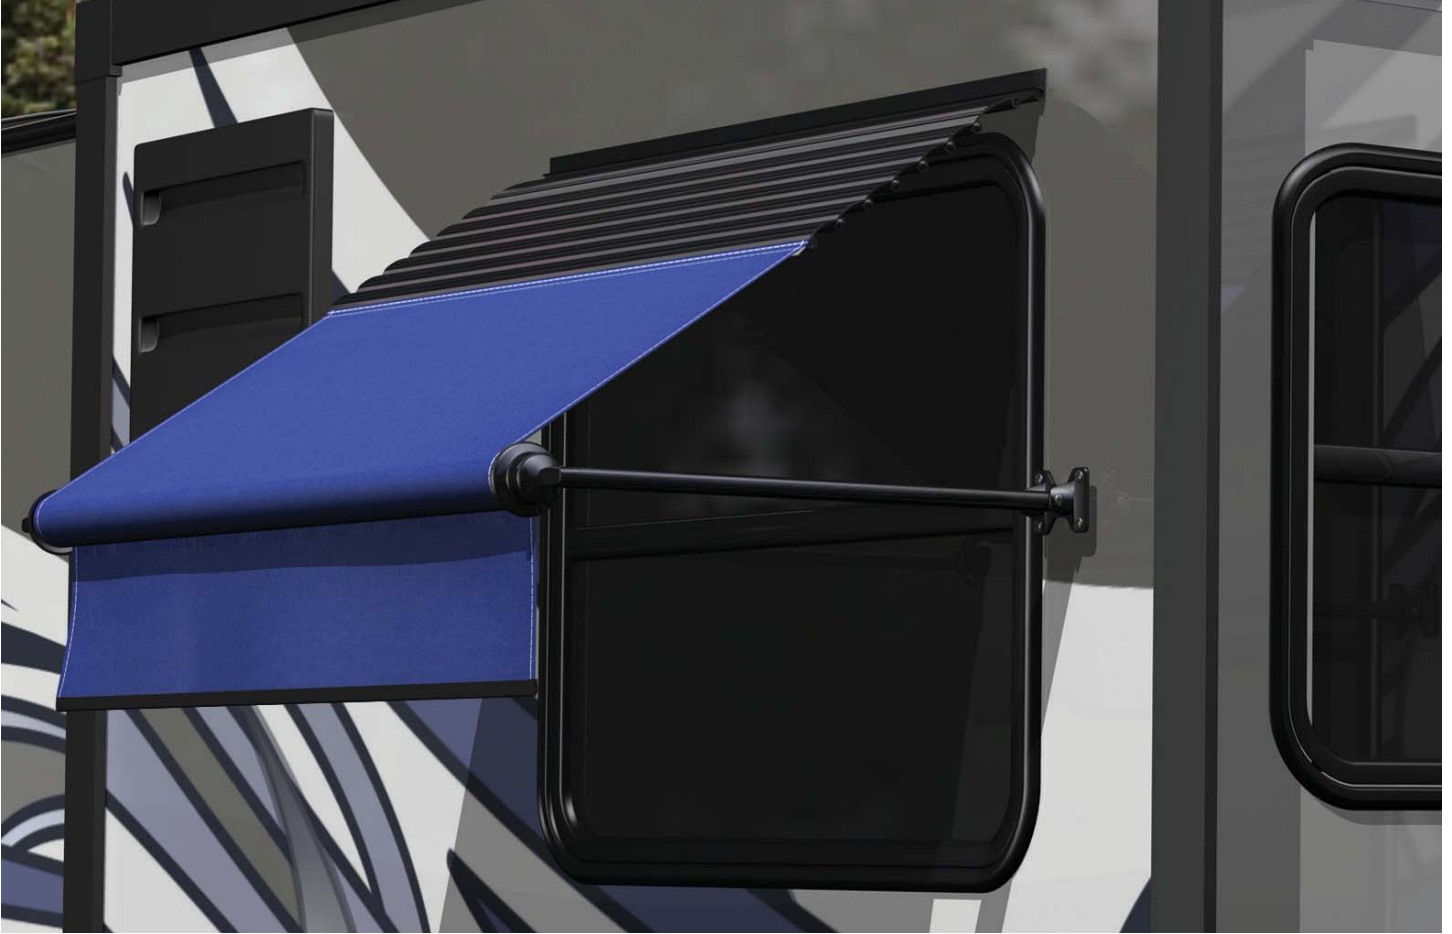

9'8" Projection Roller Assembly

- Requires 78" unobstructed area from awning rail straight down
- This hardware is configured to operate a 9'8" projection canopy

Options

- Wide selection of vinyl and woven acrylic fabrics available
 - Choose from 8 premium hardware colors to match your RV graphics (pg. 16)
- 

WINDOW AWNINGS

Keep the heat out and save on AC with Solera Window Awnings. Just use the pull cane to hook the pull strap and pull it to extend the awning. Secure the strap loop onto a hook on the RV wall to keep the awning extended. Go for the best value and the best look and cover two windows with one window awning.

Solera window awnings are available in standard arm and canopy sizes for windows that are under 33 inches in height, and in XL sizes for windows over 33 inches. Standard window awning arms are 18 inches long so they'll have an 18-inch projection, and XL window awning arms are 30 inches long so they'll have a 30-inch projection. Order arms and roller separately.

Give your slide-outs extra protection from debris and water infiltration with Solera Sliders. These attractive and economical slide-out awnings automatically retract and extend with your slide-out and block leaves, bird droppings, branches and more from damaging slide-out seals.

- Attractive and economical protection for your slide-out
- Full coverage over the slide-out roof and the RV sidewall slide-out opening
- Blocks leaves, bird droppings, branches and debris
- Automatically retracts and extends with slide-out
- Fits slides ranging from 66" to 192" long and extending up to 42"
- Comes complete with awning rail and all mounting brackets
- Choose from multiple vinyl & acrylic fabric colors
- Available with the Solera Shield

All Solera Awning canopies feature an integrated track that works with the flexible Solera Fabric Light Kit (pg. 26). The Light Kit slides into the integrated track by the coach side wall and under the awning so you can enjoy light outside the RV when the awning is extended or retracted!

Solera Shield

The built-in Solera Shield provides elegant and practical protection for your Solera vinyl or acrylic awning canopy. As the awning retracts, the aluminum Solera Shield automatically rolls up around the fabric to protect it against the elements during travel. Be sure to order your Solera Shield to match your hardware.

To order the correct Solera Slider, select the size that extends a minimum of 2-1/2" beyond each side of your box width. Solera Sliders come with all the hardware needed for installation.

➤ AWNING ACCESSORIES

AWNING ACCESSORIES

Solera® Power Pack

Want to upgrade to a Power Awning without having to wire into your 12V RV system? The Solera Power Pack is a unique rechargeable battery that fits right inside your Solera Power Awning arm and comes with everything you need to connect to the motor wire. Perfect for DIY installers who don't want to go through the hassle of wiring into the 12V RV system.

Solera Awnbrella™

Give your awning extra support and better angle for water runoff with the Solera Awnbrella. Perfect for destination campers who like to leave the awning extended for long periods, the patented rust-resistant aluminum bows hold fabric taut and arched so water doesn't pool and debris can easily run off. Now you won't have to camp with one end of your awning pitched lower than the other end. The Solera Awnbrella also complements the Solera Screen Room and Solera Family Room™.

**NOTE: The Awnbrella may leave minor stretch marks on the awning fabric, depending on use. Fabric in worn condition should be replaced before using the Awnbrella.*

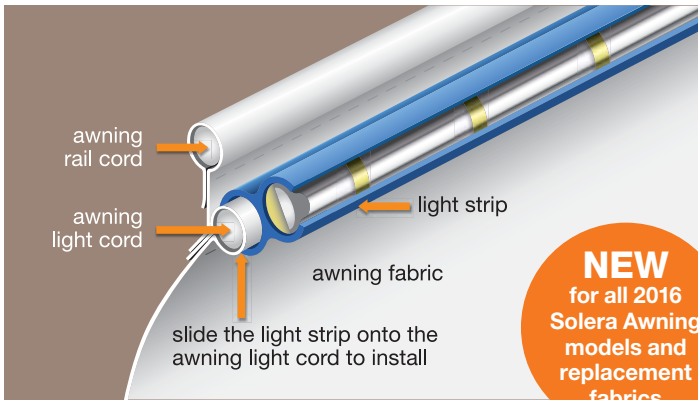

- Provides ample extend and retract power
- Comes with 110V charging kit
- Easy DIY installation
- Straightforward alternative to wiring into the RV power source

AWNING ACCESSORIES

Solera Fabric Light Kit

All 2016 Solera Awning models and replacement fabrics feature a NEW integrated light rail sewn right into the awning hem! The flexible Solera Fabric Light Kit slides into the track by the coach side wall and under the awning. The innovative design allows you to enjoy dramatic lighting outside the RV when the awning is extended or retracted!

Length	Part No.	Color
15'	387593	Black Plastic
21'	387594	Black Plastic

Awning Ground Support

Stabilize your awning and prevent the roller from sagging with the Awning Ground support

- Fits all awning brands
- Adjustable leg extension
- Stake the Awning Ground Support to the ground for best results

Part No.	Color
362246	White Ground Support
362247	Black Ground Support

Awning Wall Light Kits

Light up your outdoor patio space with a Solera Awning Wall Light Kit. LED lights come in an easy-to-install extruded plastic rail and operate on minimal batter power. Enjoy optimum lighting as the LED lights reflect off the RV sidewall and the bottom of the canopy.

Length	Part No.	Color
15'	329825	White Plastic
15'	329826	Black Plastic
21'	329887	White Plastic
21'	329888	Black Plastic

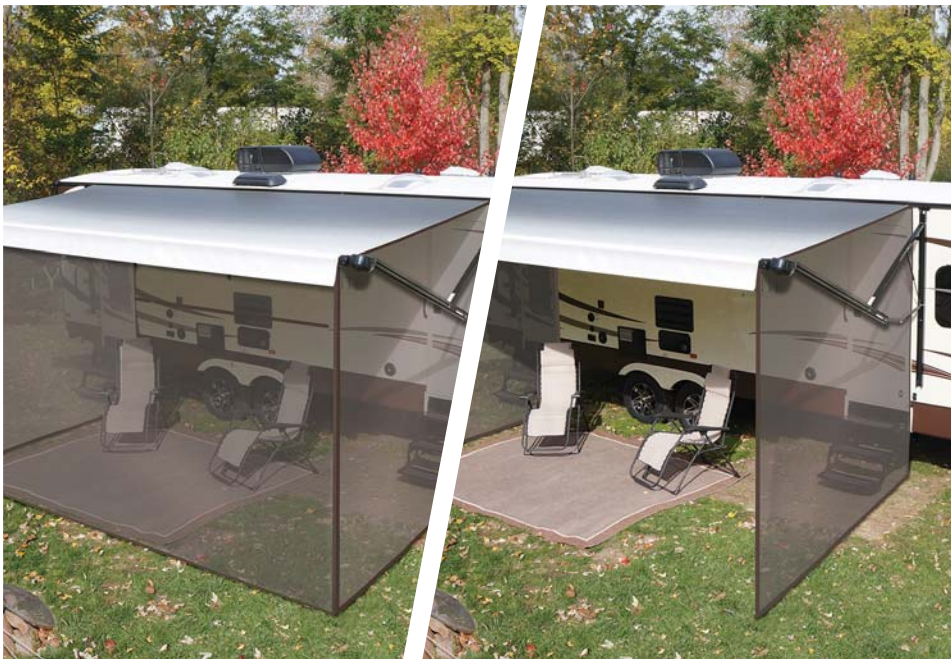

Awning Cradle Support

The Awning Cradle Support works with power or manual awnings to support the roller assembly when in the travel position; the Awning Cradle Support automatically accepts and releases the roller assembly as it extends and retracts.

Part No.	Description
289373	White
289374	Black

AWNING ACCESSORIES

Solera® Classic Front and Side Shades

Perfect for all awnings, the one-piece Solera Classic Shade is easy to slide into your awning roller tube whenever you need a little extra shade, privacy or wind block. Solera Classic Front and Side Shades drop 6 feet and include spikes and tie downs so you can secure it to the ground. The whole kit stores neatly in the included storage bag when not in use. Front and side shades sold separately.

Classic Shade

13'	3833980613
15'	3833980615
17'	3833980617
19'	3833980619

Available in black plastic only.

Solera Super Shade™

If you have a Class A motorhome, fifth-wheel or toy hauler RV with a tall awning rail, the two-piece Solera Super Shade is perfect for you! The shorter piece easily slides into your awning roller tube and can stay there throughout the camping season and even rolls up with the awning. When you need extra shade, privacy or wind block, simply zip on the longer 6-foot tall piece.

The length of the shorter top portion varies based on the drop (measure from roller tube to ground) so that the shorter portion always hangs within reach. The longer piece always measures 6-feet tall so you can reach to zip it into the shorter portion.

NOTE: Super Shade is available for standard 8' patio awnings only; not compatible with Solera XL awnings.

AWNING ACCESSORIES

Solera® Family Room™

Turn the space under your awning into an enclosed outdoor patio with the Solera Family Room kit. Add up to 160 square feet of enclosed space so you can enjoy meals minus pesky insects. Or roll down the all-weather panels and use as a cozy sleeping area for kids.

- Lightweight gray fabric compliments any RV color scheme
- Fits most 10'–21' wide manual and power awnings
- Accommodates RVs with awning rail-to-ground measurement up to 130"
- Fits 8' projection Solera, Carefree and Dometic awnings
- Measure center of arm to center of arm to determine room size needed

Replacement Arms

There are three types of Solera replacement arms. These arms are universal to both power and manual awnings. Simply measure the length of the wall-mount extrusion from top to bottom.

- Short style arms measure 60-1/2"
- Pitched style arms measure 66-1/8"
- Flat style arms measure 69"

ALIGNMENT, SUSPENSION & AXLES

CORRECT TRACK™ SUSPENSION ALIGNMENT SYSTEM

Your customers will feel the difference in their tow and in their wallet

Correct Track™ by Lippert Components can be integrated into your RV suspension system to allow for simple and safe alignment adjustments to ensure your trailer tows with the tow vehicle, not against it. After performing a laser alignment check, we can customize the wheel alignment to your specific load requirements by turning the octagon cam in ¼-inch increments. Heavy slide-outs, appliances and cargo can cause unbalance, premature tire wear and uncontrollable RV vibration, but Correct Track suspension alignment system keeps your tires running smoothly, improves gas mileage and ultimately saves you money.

CORRECT TRACK™ SUSPENSION ALIGNMENT SYSTEM

Every one of your customers wants better gas mileage. You can give it to them.

Is your trailer pulling against you?

Misaligned suspension can cause uneven tire wear.

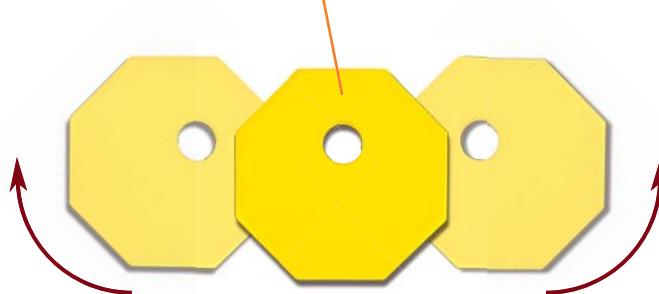

A properly aligned suspension tows straighter and can lead to better fuel mileage.

Correct Track is endorsed by The RV Doctor, Gary Bunzer.

- Easy bolt-on installation
- Can improve fuel economy
- Tires run smoother and cooler
- Helps prevent uneven tire wear
- Trailer tows with the tow vehicle, not against it
- Prevents vibrations, protecting RV equipment from damage

Each turn clockwise or counterclockwise adjusts alignment 1/4 inch

Ask your LCI sales rep about the Correct Track Profit Program.

NeverFail™ BUSHINGS

no maintenance • life-time suspension

Never Fail Spring and Shackle Bushings are maintenance-free, permanently lubricated and guaranteed to never fail. Never Fail Bushings are significantly less expensive and more durable than wet bolts with bronze bushings that become worn over time.

Actual Never Fail Bushing
with 100,000 miles

Never Fail Bushing Replacement Kits

Replace your old, worn-out bushings with our Never Fail Bushing kits in convenient single, tandem and triple axle retail packages.

Never Fail Shackle, Bolt & Bushing Kits

Our Never Fail Shackle, Bolt & Bushing kits come complete with all the hardware you need to replace your standard running gear kit. Replace today and forget about bushing maintenance forever

EQUA-FLEX® RUBBERIZED EQUALIZER

equa-flex

The patented Equa-Flex rubberized equalizer absorbs road shock like a sponge instead of transferring it to the RV and cargo, preventing damage that can be caused by a bumpy ride. Equa-Flex also reduces fore-to-aft movement, often referred to as "chucking," to provide a smooth, comfortable ride. Equa-Flex also Scored a 7.5 out of 10 in independent testing, compared to 5.0 by the leading competitor.

Equa-Flex Equalizer Frame Chatter Testing Results

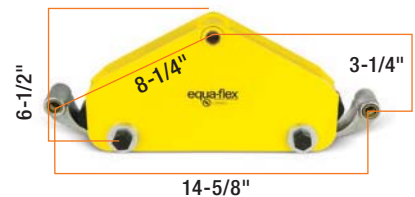

Equa-Flex reduces frame acceleration by 40% at 15-40Hz compared to both MOR/ryde and a standard non-ride enhanced suspension.

SUSPENSION ENHANCEMENT

Our Center Point suspension system absorbs impact caused by road shock and provides a smoother ride and optimum brake efficiency. It's easy to install and dramatically improves passenger comfort and reduces side-to-side trailer sway. It dampens road shock more effectively than torsion axles. It also dramatically improves braking distance in panic stops.

part no.	description

SHOCK MOUNT KITS

Instantly improve your customer's suspension with our complete shock mounting kits. Shocks help to manage axle spring movement to provide a smoother, more comfortable ride. Complete mounting kits for 2-³/₈" and 3" axle tubes available as well as single replacement shocks. Shock installation requires 4" of clearance between tire and frame.

Complete Shock Mount Kits

12" extended length

FORWARD SELF-ADJUSTING BRAKES

Be prepared in case of an emergency stop

Standard brakes should be adjusted every three months. Forward Self-Adjusting Brakes self-adjust during every forward stop, providing up to 50 percent better braking distance and preventing premature brake line and magnet wear.

GET UP TO **50** PERCENT **BETTER BRAKING DISTANCE**

Trailer equipped with forward self-adjusting brakes

Trailer Equipped with Standard Electric Brakes

Trailer equipped with standard electric brakes

SIMULATED STOPPING DISTANCE AT 60 MPH

SPRING AXLES

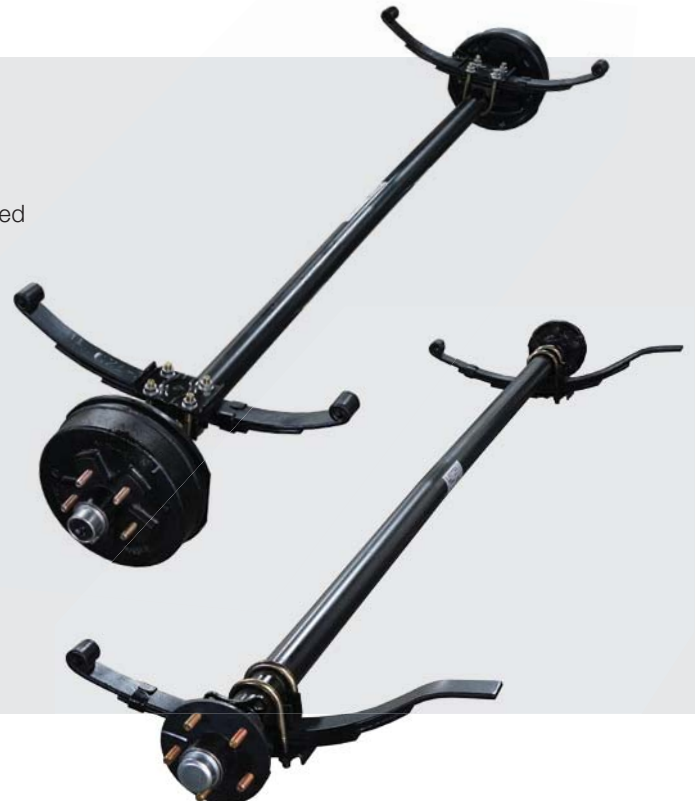

Redefining “standard”

With more than 500,000 square feet of total manufacturing space on the east, west & Texas coasts, LCI can meet any axle challenge in the RV, marine, horse and cargo trailer markets. Our robotic welders ensure the highest precision on our spindles, spring seats, torsion arms and torsion brackets. Every axle assembly is traceable down to the exact production run and original component lot number.

QUICK FACTS

- 2,000–12,000-pound spring axle capacity
- 2,000–7,000-pound spring idler axles
- CSA certification on all 2,000–7,000-pound axles
- Integrated, one-piece spindle flange
- Complete axle assembly and component traceability and serialization
- Single, tandem or triple axle assemblies with standard or upgraded equalized suspension available
- Straight or drop spindles
- Slipper or double eye leaf spring suspension
- Rust-prohibitive powder-coated axle tubing
- Waterproof connections on all electrical wiring
- Electric, hydraulic, hydraulic free-backing and hydraulic disc brakes available
- Forward Self-Adjusting Brakes available on 3.5–10K
- Super lube hubs and bearing lubrication option (standard on 8K spring axle)

TORSION AXLES

QUICK FACTS

- 2,000–8,000-pound torsion axle capacity (square bolt orientation)
- 2,000–7,000-pound torsion axle capacity (diamond bolt orientation)
- 2,000–7,000-pound torsion idler axle capacity
- Rubberized torsion beam for a quiet, smooth ride
- Require less maintenance than spring axles
- Torsion bar absorbs road shock and vibrations
- Square and diamond orientation available
- Various starting angles to control trailer height
- Independent wheel suspension
- CSA certification on all 2,000–7,000-pound capacity axles
- Complete axle assembly and component traceability and serialization on all axles
- Single and tandem axle assemblies with standard or upgraded equalized suspension available
- Rust-prohibitive powder-coated axle tubing
- Waterproof connections on all electrical wiring
- Electric, hydraulic, hydraulic free-backing and hydraulic disc brakes available
- Forward Self-Adjusting Brakes available on 3.5–10K
- Super lube hubs and bearing lubrication option

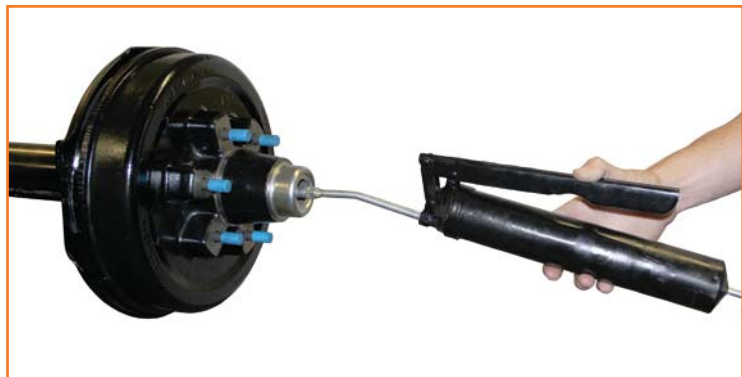

Diamond Pattern

Square Pattern

Super Lube advantages:

- Time-saving lubrication system requires no disassembly of wheels or hubs
- Makes changing grease easier and cleaner
- Super Lube system fills the entire bearing cavity with grease, allowing for complete submersion
- Grease cap with rubber plug allows easy access to grease zerk in axle spindle
- Pumping new grease through zerk purges old grease for a complete repack
- Better long-term protection than standard hubs

LEVELING & STABILIZATION

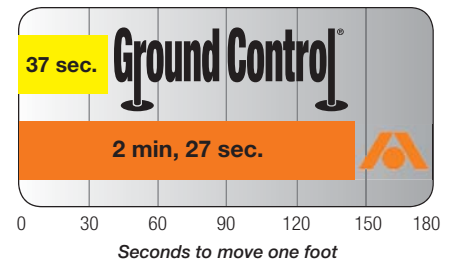

GROUND CONTROL® ELECTRIC LEVELING SYSTEM

With the push of a button, Ground Control 3.0 levels and stabilizes an RV quickly and accurately, enhancing the overall camping experience. It can take up to an hour to get an RV level with manual jacks, chocks and wedges. Ground Control 3.0 levels and stabilizes the RV in a matter of minutes and features automatic re-hitch memory that remembers the exact height at which the RV was unhitched to save RVers time when hooking up.

Ground Control Speed vs. Atwood

Automatic, one-touch electric leveling

Only 3 minutes to level

Stronger, faster jacks

Easy bolt-on installation

Optional one-touch wireless remote

POWER GEAR® HYDRAULIC LEVELING SYSTEM

The four-point Power Gear Hydraulic Leveling System levels and stabilizes a motorhome in just a few minutes using one-touch, automatic or semi-automatic leveling. Power Gear Motorhome Leveling enhances the overall camping experience by preventing annoying rocking and swaying at the campsite and can accommodate a wide range of vehicle sizes from Class A to Class C units.

QUICK FACTS

- American-made leveling jacks can lift 6,000–24,000 pounds each
- Automatic and semi-automatic aftermarket kits available
- Automatic system uses smart electronics to minimize frame twist
- Manual bi-level mode can lift front or back only
- Patented safety feature retracts all jacks when the parking brake is released
- Lightweight and compact; all components fit under the coach

A complete line of aftermarket kits and replacement parts available

Automatic and semi-automatic aftermarket kits for a range of vehicles from class A to class C units

POWER STABILIZER JACKS

POWER STABILIZER JACKS

Redesigned for better stability and higher speed

After a long road trip, cranking manual scissor jacks can be a lengthy and strenuous process. Stabilize faster with Power Stabilizer Jacks. Easily retract and extend the jacks with the flip of a switch. In just a few minutes, the coach will be stable, so you can spend less time setting up camp and more time enjoying your vacation. Power Stabilizer Jacks are an affordable way to upgrade to power stabilization and easily bolt on to the existing frame.

QUICK FACTS

- Legs extend up to 30"
- Heavy-gauge steel construction
- **New** embossed legs add strength
- Lighter than previous models
- One motor independently controls both legs
- Powder-coat finish stands up to the elements
- **New** patented technology, motor is 2x faster
- Front and rear mounting applications available for maximum stability
- Jacks automatically adjust to the terrain

New look. More features.

The new 3,500-pound Smart Jack by Lippert Components offers many new features never-before-seen on a power tongue jack. The new backlit control panel lets users easily operate the jack in the dark. The control panel also features a battery indicator that alerts the user of the remaining battery life. Halo effect LED lights shine down on the ball and coupler, where light is needed the most. The Smart Jack also features an auto-retract feature; just press the retract button three times, holding it for a few seconds on the third time to automatically retract the jack to towing height. Updated aesthetics give your trailer an updated look while hiding the motor and protecting it from the elements. Kit comes complete with mounting hardware, foot pad and manual override crank handle in case of power failure.

NEW bright halo effect LED light package shines down onto your ball and coupler where light is needed the most

NEW backlit buttons illuminate when any button is hit, and turn off automatically in order to prevent battery drain

QUICK FACTS

- **New** backlit modern control panel replaces tired looking rocker switches
- **New** battery indicator alerts user of remaining battery life
- **New** easy auto-retract feature retracts the jack to towing height without having to hold down the switch
- **New** updated hood mirrors the design in today's travel trailers and hides the motor, preventing cords and wires from becoming snagged
- 3,500-pound capacity
- Helical cut gears reduce noise and improve operating efficiency
- Easy access manual override on top of jack in case of power failure
- 30 AMP, 18" stroke
- Color offered: Black

part no.	description
431423	Smart Jack - Black

POWER TONGUE JACK

Stop wasting time cranking a manual tongue jack over and over. With just the flip of a switch, the 3,500-pound capacity Power Tongue Jack quickly lifts and lowers a travel trailer RV. The Power Tongue Jack is quiet and efficient and features four LED lights so it's easy to set up camp day or night.

QUICK FACTS

- 3,500-pound rating
- 30 AMP, 18" Stroke
- Textured casing helps protect from chips and cracks
- 4 LED lights provide excellent illumination
- Helical cut gears reduce noise and improve operating efficiency
- Kit includes mounting hardware, pins and manual crank handle

JT'S STRONG ARM™

Put an end to unwanted chassis movement

Each JT's Strong Arm stabilizer tube bolts on to each landing gear leg and to the RV frame, forming a rigid triangle to eliminate unwanted chassis movement and provide a rock-solid camping experience, no welding required. The patented universal system is designed to attach to the three main types of jacks found on RVs: scissor, front landing gear and telescoping. JT's Strong Arm Jack Stabilizers come in easy bolt-on kits of four or six stabilizer tubes and include everything needed for installation.

If unit has hydraulic jacks, three #314592 jack adapter lugs are required. If unit has electric stabilizer jacks, one #314597 adapter kit needed per set of electric stabilizer jacks.

part no.	description
191023	Fifth-Wheel Kit Over 58" Between Landing Gear
191024	Fifth-Wheel Kit Under 58" Between Landing Gear
191025	Travel Trailer Kit

JT'S STRONG ARM™ JACK STABILIZER ACCESSORIES

Jack Adapter Lug: Hydraulic

2 per package: Lugs can be welded to round hydraulic foot pads to attach JT's Strong™ Arm Jack Stabilizers. Bolt-on or weld-on application. Bolts included.

314592

4" Swing Bolt Kit

Replacement bolt kit: 4" swing bolts are used on front and rear jacks to attach stabilizer bar.

314596

Spacer Mount

2 per package: Spacer kit used when Nylock nut can't be installed at the end of the bolt due to restricted access such as a chassis or floor insulation/underbelly.

314600

Silver Bullet Lifting Handle

2 per package: Threads into 4" swing bolt on front landing gear leg and can be used to manually lift front jack when needed.

314593

Electric Stabilizer Jack Pad Adapter Kit

4 per package: Used to attach stabilizers to LCI® electric stabilizer jack foot pads. One plate goes on each side of jack pad to allow electric jack to retract fully.

314597

Front Landing Gear Clevis Kit

Replacement kit: Fits around fifth-wheel front landing gear legs in order to attach stabilizer bars.

314601

T-Bolts

2 per package: Replacement T-Bolts tighten stabilizer arms. Must loosen T-Bolts before extending or retracting all jacks or else jack damage can occur.

314594

Stiffening Pads

2 per package: Use on cross members to strengthen thinner gauge material or use two to sandwich compartment floor. Place pads 1/4" from the front or back edge.

314598

T-Handle Tightening Tool

This 27-1/2" tool allows you to tighten or loosen T-Bolts without kneeling or crawling on the ground.

314602

1-1/4" Swing Bolt Kit

Replacement bolt kit: 1-1/4" swing bolts are bolted to the frame or spacer mount on units with an enclosed underbelly to attach stabilizer bar.

314595

Thread Cutting Bolt Kit

12 per package: Used to attach spacer mounts to the frame. Drill 1/8" pilot hole, then use 5/16" bit. Bolts are designed to cut through frame as you drill.

LANDING GEAR

Power front landing gear is standard on most fifth-wheels produced today. Shouldn't your customers have access to the same time-saving feature? Easily raise the front of a fifth-wheel RV with our universal mount Power Landing Gear.

QUICK FACTS

- Universal mount design
- 6,000-pound capacity
- 21" stroke
- Inner tube extends an additional 16"
- 1" between tube holes
- Rust-prohibitive surface on outer leg
- IP-rated switch
- Standard, high-speed & heavy-duty motor options

part no.	description

QUICK RELEASE PULL PINS

Standard landing gear pull pins are a pain. Simply pull the Quick Release Pull Pin and let the inside leg drop to the ground. When jacks are raised or lowered, the pin will automatically snap itself into place. No more messing with those cumbersome lynch pins. Simply pull and release.

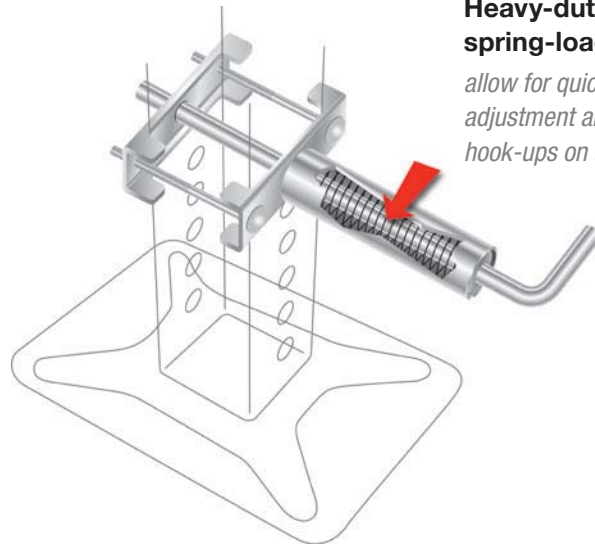

QUICK FACTS

- Makes operating landing gear legs less cumbersome
- Quicker and easier than standard hair pin
- Bright, zinc-plated finish
- 3/8" diameter pin fits 7/16" hole
- One-time installation/ permanently attached
- Works with all type of jacks
- Bolt-on installation; no welding required

Heavy-duty spring-loaded pull pins

allow for quick height adjustment and secure hook-ups on a fifth-wheel trailer.

ELEPHANT FOOT JACK PADS

Double your stability

A larger footprint means more stability and less rocking and swaying while camping. Our molded composite Elephant Foot Pads are twice the footprint of standard jack pads and increase the jack footprint to 10 inches in diameter and don't get stuck in the ground as easily as steel feet do. Easy installation.

TRAILAIR® PIN BOX PROFIT PROGRAM

The Trailair Pin Box Profit Program features a complete line of pin box solutions to cover the novice weekend RVer and the full-timer RVer, who demands nothing but the best towing experience. Each Trailair pin box dampens road shock to make fifth-wheel towing more comfortable and less stressful for the driver. The in-store product display shown below makes it easy to educate customers on how to enhance their towing experience, and we can work with you to create custom web ads, email blasts and more to further support your sales efforts.

Optional monitor loops RV Doctor videos and Trailair info.

Display up to two Trailair pin boxes at a time.

Pin boxes are removable and can be sold right off the display.

PIN BOX FIT-UP GUIDE

Follow these steps to determine the correct Pin Box replacement model:

Step 1:

Look for the white sticker with a 4-digit number on it. (ex. 1621 or 1716)

Step 2:

What is the GVWR of the unit?

Step 3:

Visually compare the illustration to the mounting wing on the trailer.

Step 4:

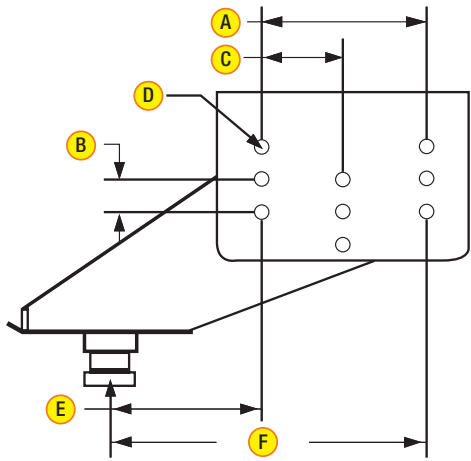

Measure length of box (front row of bolts to center of pin).

Step 5:

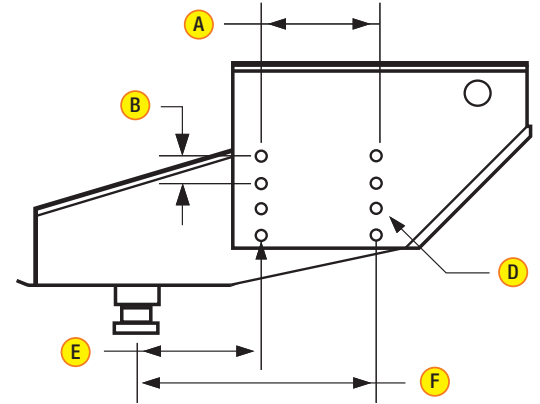

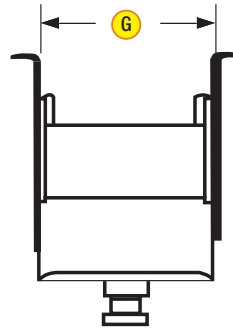

Measure bolt pattern (all three dimensions).

Step 6:

Measure box width.

Three-Row Hole Pattern

Two-Row Hole Pattern

LCI Pin Boxes

OEM part no.	LCI replacement	bolt pattern	style	horizontal distance between bolt pattern A	vertical distance between bolt pattern B	distance between rows C	bolt size D	bolt head size	front row bolts to center of kingpin E	rear row bolts to center of kingpin F	box width G
1621	L05	2-row	Long	7-3/4"	2"	n/a	5/8"	15/16"	17-3/4"	25-5/8"	12"
0719	M15	2-row	Medium	7-3/4"	2"	n/a	5/8"	15/16"	9"	16-7/8"	12"
1716	L07	3-row	Long	8-3/4"	2-1/2"	4-3/8"	5/8"	15/16"	20-3/8"	29-1/8"	12-1/2"
1116	M19	3-row	Medium	8-3/4"	2-1/2"	4-3/8"	5/8"	15/16"	14-5/8"	23-1/4"	12-1/2"

NOTE: We realize there are many different pin boxes on the market. If your pin box does not match up to these specs, please feel free to contact your customer service representative.

The most comfortable towing experience

The Flex Air Pin Box combines LCI's time-tested Trailair® Air Ride technology with its Rota-Flex® pivoting head to significantly reduce fore-to-aft movement and vertical tug-of-war between a fifth-wheel RV and tow vehicle, providing the user a more comfortable ride. The Flex Air Pin Box utilizes an air bag to absorb road shock and vibrations, a rubberized compound to soften jarring motion, and an oil shock absorber to handle rebound action, dampen kickback and control chucking.

Flex Air

part no.	description
328484	M15 18K Flex-Air, Med. Tow
328492	L05 18K Flex Air, Long Tow

1 Air Ride Technology

The air bag acts as a buffer between the tow vehicle and coach to absorb road shock and vibrations that can damage an RV.

2 Oil Shock

As the air bag absorbs road shock and vibration, the oil shock absorber handles rebound action, dampening kickback.

3 Pivoting head

The heavy-duty pivoting head in the lower jaw controls the vertical tug-of-war between the tow vehicle and fifth-wheel RV.

4 Rubberized compound

The durable rubberized compound provides an additional buffer to help protect the fifth-wheel RV from jarring motion.

AIR RIDE™ & ROTA FLEX™ PIN BOXES

Enhance your towing experience

STRAPTEK™ WEIGHT DISTRIBUTION TECHNOLOGY

THROW YOUR CHAINS AWAY

Straptek™ simplifies weight distribution hitch systems for trailers by employing a ratchet winch and heavy-duty polyester straps instead of traditional chains and snap-up brackets. Straptek allows users to safely adjust weight distribution spring bars on their trailer with a standard socket wrench. It also provides sway control and is compatible with most weight distribution hitch systems.

Easier Adjustment

Standard weight distribution systems (WDS) require raising the tow vehicle with a tongue jack over and over in order to get the right tension. Straptek adjusts by simply tightening or loosening the heavy-duty polyester straps with a standard socket wrench, saving time and energy.

Safer Adjustment

Standard WDS spring bars can bear hundreds of pounds of built-up pressure. When unhooking a trailer, an RVer must eventually unlatch the snap up chains using a lifting accessory. If too much tension remains on the spring bars, they can snap back and cause serious injury. Straptek does away with chains and can be adjusted and readjusted using an easy-to-use ratchet and winch system.

Controls Sway

A standard WDS system requires at least 7-1/2 inches of extra chain between the snap-up hook and the spring bar. Straptek's low-profile design reduces the pendulum length by about half, providing increased sway control. Straptek reduces the anxiety that comes with the dangerous trailer movement sometimes allowed by traditional chain and bracket systems.

Standard weight distribution systems can require raising and lowering the tow vehicle with a jack over and over to get the right tension.

Straptek adjusts by simply tightening or loosening the heavy-duty polyester straps with a standard socket wrench, saving time and energy.

QUICK FACTS

- Integrates with most WDS hitches on the market; will not function with Equal-i-zer® Sway Control Hitches
- Attaches to any tubular or C-Channel frame trailers
- 1-1/8" socket head attachment required (not included)
- Spring bars and hitch sold separately
- Kit includes two Straptek Tensioner Assemblies, two straps and attachment bolts

JACK-IT™ DOUBLE BIKE CARRIER

JACK-IT™

Ever wished you could see your bikes from your rear view mirror as you tow your travel or cargo trailer down the road? Now you can with the Patented Jack-It™ double bike carrier from Let's Go Aero®. The Jack-It's innovative frame design installs over the tongue jack on the trailers A-Frame, the softest riding area on the frame. The BikeWing™ carrier holds two bikes safely, securely and simply by the wheels.

The adjustable wheel cradles and SwayStop straps secure the bike wheels to the bike carrier for a secure ride. The Jack-It allows travel trailer owners to utilize the valuable rear hitch/cargo space for additional gear and gives owners a new cargo utilization space.

QUICK FACTS

- 25-pound total weight
- Fits most A-Frame travel and cargo trailers
- Frees up travel trailer's rear hitch/cargo area
- Fits all bike frames
- Carries your bikes by the wheels for balance, stability and ease of use.
- PowerTower frame protects tongue jack from impact
- Optional accessory allows for conversion onto Lippert Component's TailGate® Storage System
- Will not void chassis warranty
- Optional accessory doubles BikeWing as a hitch rack
- Includes (2) SwayControl cradles, (2) Lockable NoMotion™ pins and (3) 3/8"-16 1-1/2" bolts

TOYLOK® ANTI-THEFT DEVICE

Loop it, lock it and leave it.

Lock up the bike, ATV, grill, generator, camp chairs, dirt bike— just about anything — with the ToyLok anti-theft device. Simply bolt ToyLok onto the RV chassis, hitch or bumper and easily secure valuable personal property outside by extending the self-retracting cable, looping it through valuables and locking it with the heavy-duty padlock.

QUICK FACTS

- Weighs only 5.5 pounds
- Easy bolt-on application
- 8,000-pound capacity cable
- Built-in clutch prevents cable snap back while retracting
- Features padlock, 2 keys and 15-foot PVC-coated cable
- Internal braking and pulley system allows users to choose the optimal cable length
- Easy bolt-on hardware kit includes two 1/4" 28 tpi x 3" bolts with security nuts

Optional mounting kits for every application

TV LIFT SYSTEM

This TV Lift is a great way to save on counter space and an impressive way to display a TV. The lightweight system is easy to install and program, and smart technology shuts the motor off in case of obstruction.

Convenient remote control included

Includes mounting hardware; easily mounts to cabinet, fireplace, counter, etc.†

QUICK FACTS

- Patented worm rail design efficiently moves TV up and down
- Easy one-button programming; use the same button to program two stopping points; programming takes less than one minute
- Lifts TVs weighing up to 200 pounds
- Requires less depth than other systems
- Wireless remote and manual switch included
- 10-foot wiring harness allows flexible installation
- Perfect for the home as well
- Can be used for other applications, such as cabinets, etc.

part no.	description
309690	TV Lift System with RF Remote

†Hardware included will mount TV Lift system and motor to desired mounting location. Hardware to mount TV sold separately. Please consult your TV's owner's manual for correct bolt dimensions.

KWIKEE® CARGO TRAYS

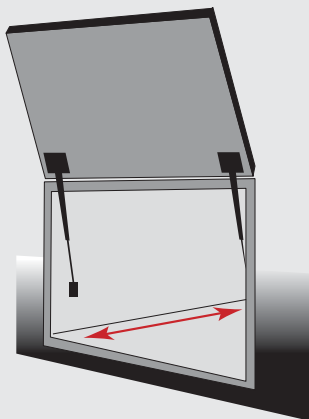

Customize for easy access to storage

KwikEE Cargo Trays make accessing storage so much easier. RVers can stop climbing into deep storage compartments or straining to reach items in the back. Instead they can simply slide out the tray and grab what they need. Industrial grade ball-bearing slides keep trays gliding smoothly and allow them to extend all the way out. You customize the KwikEE Cargo Trays to perfectly fit each customer's storage compartments using plywood. Once installed, cover with carpet, rubber matting or vinyl.

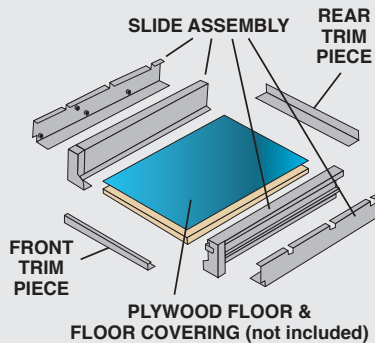

How to Measure

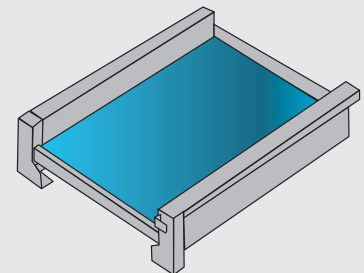

1. To select slide size (length), measure depth of compartment.

2. Determine desired width, allowing 4" for frame sides. Cut a section of 3/4" plywood (not supplied) and both trim pieces (if needed). Attach plywood to inner slide frame.
3. Square outer slide frame. Mark support holes, drill, and secure outer frame through the basement floor.

4. Cover plywood with carpet, rubber mat, or vinyl (not supplied).

WASTE MASTER®

Goodbye, stinky slinky

359724

Secure Cam Lock

The Waste Master isn't just a hose and nozzle, it comes complete with a time-tested cam lock connector that ensures a leak-resistant connection to the sewer outlet. Traditional RV hose bayonet fittings can leak, but industrial grade cam locks have been used in the liquid transportation industry for decades and are proven to provide a strong, reliable seal.

Tough Clean Hose

Unlike traditional hose coils that trap debris, the patented Waste Master hose is designed with its helical coil on the outside, while the inside is much smoother, preventing waste from getting trapped inside the hose. The UV-protected hose is 5' 6" compressed and 20' extended and features technology that keeps it extended during use to the exact length required.

User-Friendly Nozzle

The permanently-connected nozzle is molded with an easy-grip handle, an integrated shut-off valve and a clear view port that allows the user to see when waste has completely evacuated, helping ensure the tanks and hose are clean. The nozzle also features a 90 degree discharge port that is easy to fit and secure into any sewage inlet.

FLOW DOWN™

Adjustable RV drain support system

The Flow Down™ adjustable RV drain support system keeps your drain hose up off of the ground and easily adjusts to nearly any slope, preventing sewage from getting trapped in the hose. This premium system eliminates odor by preventing waste buildup and protects your hose from damage. No more carrying lumber, rocks or modified PVC pipe to hold your hose up off the ground. The legs of each section can be simply adjusted using the knobs, and the kit can also be set to safely pivot the hose around obstructions. One kit extends to more than 10 feet and it can be easily expanded to 20 feet by adding a second kit.

Eliminate tank odors from the source

The 360 Siphon® RV holding tank vent cap eliminates odors from the source — the holding tanks — and exhausts them out through the roof vent before they have a chance to invade the RV living space. By design, the patented 360 Siphon can only create an updraft, expelling odors and fostering an oxygen-rich environment to speed up waste breakdown. Breathe easier and enjoy a healthy, odor-free living environment with the 360 Siphon.

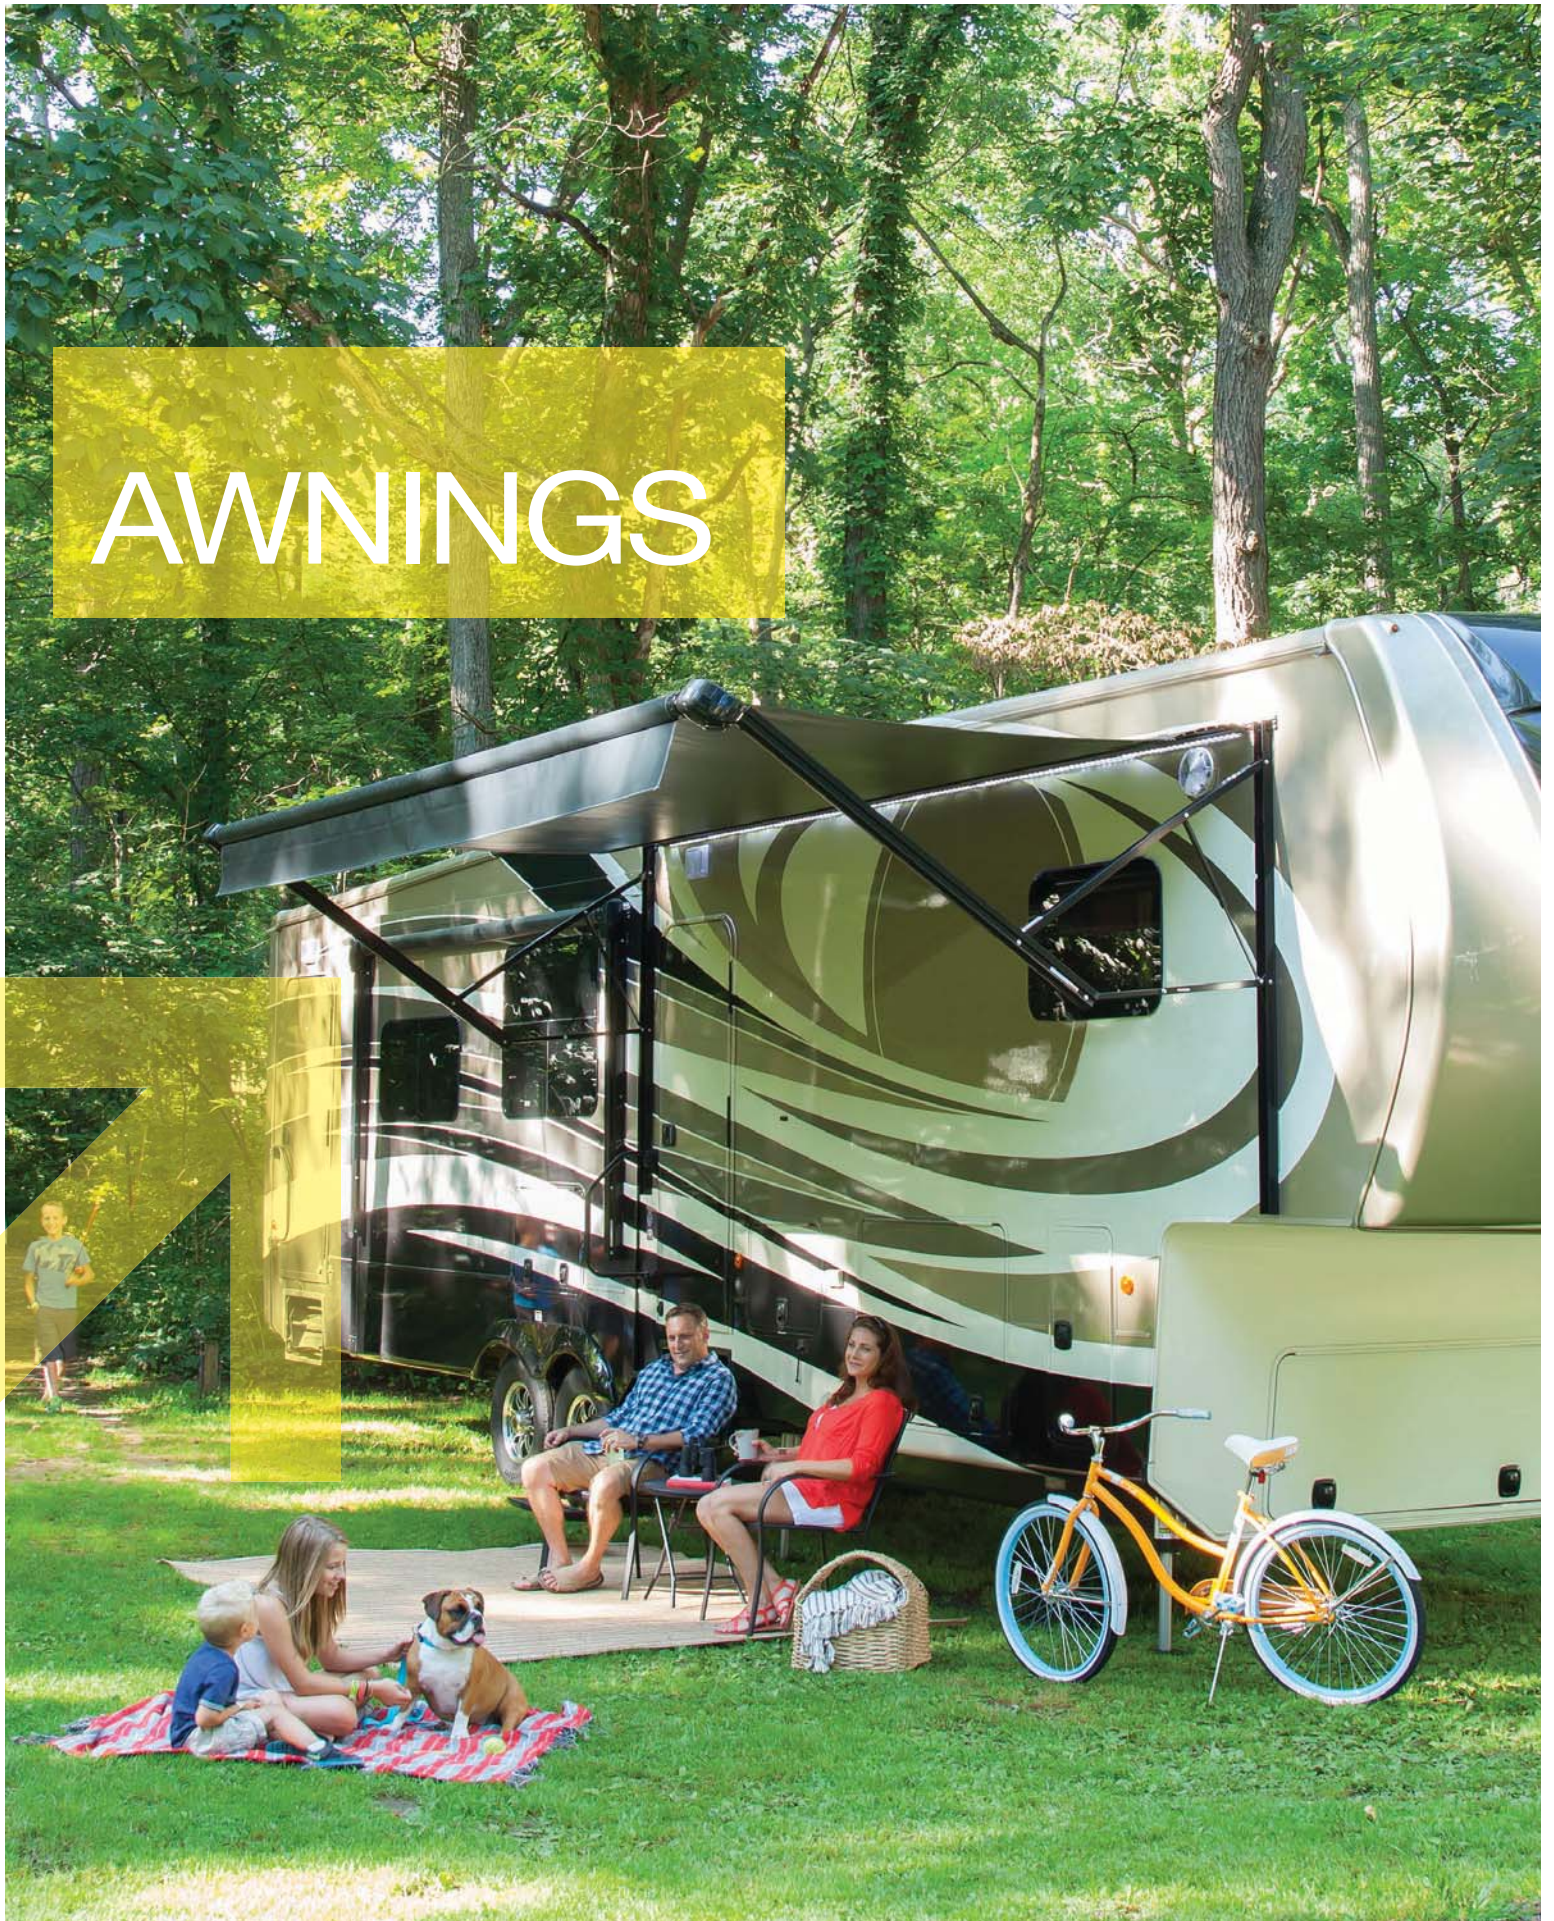

FEATURES

- Sophisticated, patented design with no moving parts
- Made in America of strong polycarbonate
- Easy installation and universal fit
- Works in any wind condition
- Built-in bug screen
- No maintenance

part no.	description

POWER UP

Isn't it time you made the switch from a manual spring-loaded awning to something easier? Stop wasting time and energy with manual awnings! With our new universal hardware, you can now easily swap your old spring-loaded awning and POWER UP with one of three easy-to-use Solera awnings by Lippert Components. Choose between full or partial extensions for sunlight coverage at any hour of the day. With stress-free setup and operation, Solera awnings leave you with more time to relax and enjoy yourself. POWER UP today, and save the stress for your day job.

NOTE: All awnings available from 10' to 21' widths in 1' increments

Power Awning Kit Includes

- Two arms
- Switch & wiring harness
- Fasteners

*Power Pack not available for Solera XL Awnings.

- Super easy operation: operates with push button mounted inside RV
- Enjoy full or partial extension
- Exclusive, quick and simple independent pitch adjustment
- Easy access manual override
- Auto rain dump feature – if water pools in the canopy, the arms will release it
- Designed to provide optimum pitch when used over slide-outs
- Optional Solera Power Pack perfect for DIY installs – eliminates wiring to RV
- Wide selection of quality vinyl and woven acrylic fabrics available with aluminum Solera Shield®
- Choose the XL 10' projection canopy – perfect shade for tall motorhomes and fifth-wheel RVs

Solera® Power Hardware

SHORT ARM	TALL ARM	XL ARM
Adjustable Pitch <ul style="list-style-type: none"> • Requires 60-1/2" unobstructed area from awning rail straight down • Requires min. clearance of 13-1/2" between awning rail and top of entry door • This hardware will roll the awning out to a pre-set pitch for maximum shade and ideal rain runoff • 2-position pitch 	Flat Adjustable Pitch <ul style="list-style-type: none"> • Requires 69" unobstructed area from awning rail straight down • Requires min. clearance of 2-1/2" between awning rail and top of entry door • This hardware will roll the awning out flat to allow for clearance over slides, and allows quick and easy pitch adjustment at either side of the awning • Infinite adjustment 	Flat Adjustable Pitch <ul style="list-style-type: none"> • Requires 78" unobstructed area from awning rail straight down • Requires min. clearance of 4-1/2" between awning rail and top of entry door • This hardware is configured to operate a 9'-8" projection canopy. *NOTE: Solera XL arms require XL roller assemblies

UPGRADE

The Solera Hybrid Awning combines the best of both worlds. Featuring a simple crank operation, the Solera Hybrid Awning extends and retracts just like a Power Awning, except you supply the power. The next best thing to a fully powered awning, the Hybrid allows you to skip the potential hassle and installation cost of running wiring and acts as a do-it-yourself upgrade from a manual spring-loaded awning.

Hybrid Awning Arm Kit Includes:

- Two arms
- Switch & wiring harness
- Fasteners

NOTE: All awnings available from 10' to 21' widths in 1' increments

- Enjoy full or partial extension
- Deploys and retracts just like a Power Awning, except you supply the power - the awning opens, raises itself into camping position and lowers for secure travel as you crank
- Exclusive, quick and simple independent pitch adjustment
- Auto rain dump feature – if water pools in the canopy, the arms will release it
- Designed to provide optimum pitch when used over slide-outs
- Wide selection of quality vinyl and woven acrylic fabrics available with aluminum Solera Shield
- Choose the XL 10' extension canopy – perfect shade for tall motorhomes and fifth-wheel RVs

**XL requires different roller assemblies*

**20%
 MORE
 SHADE**
 THAN A STANDARD 8'
 PROJECTION AWNING

**THE FIRST!
 XL 9'8"
 PROJECTION**

GO LARGE

The Solera XL Awning features a 9'8" projection making it perfect for taller RVs and RVs with a slide-out under the awning. Class A motorhomes, fifth-wheel and toy hauler RVs continue to get taller and taller, so it can be difficult to get the shade you need from a standard 8' projection awning. Not only that, but many brands now feature slide-outs under the awning, which can really limit your shaded patio area. Choose a Solera XL Awning to enjoy 20 percent more shade than a standard 8-foot projection pitch.

Now featuring an adjustable projection pitch Sleeve, the Solera XL Awning can be pitched at multiple points to block the sun at any time of day. The two-stage projection pitch Sleeve also provides added strength and support for your awning making the XL awning one of the best values on the market.

Painted hardware comes standard with black bracketry

XL Power Awning Arm Kit Includes:

- Two arms
- Switch & wiring harness
- Fasteners

**Power Pack not available for Solera XL Awnings.*

XL Hybrid Awning Arm Kit Includes:

FIX IT

Is your RV awning in need of a fix? Take the hassle out of fixing or replacing your classic awning. With our improved line of universal awning hardware, replacing your awning has never been easier. Fix your old, worn out awning with the Solera Classic Awning. The rugged, spring-loaded Solera Classic extends and retracts in just a few easy steps. Simply release the travel locks on each arm, loosen the rafter knobs, and use the pull cane to unlock the roller. Then hook the pull strap and walk it out to unroll the awning. Once extended, set the tension, tighten rafter knobs and raise the awning arms to whatever pitch you want for shade and water runoff. Take advantage of the "carport" position with this awning, making it easy to attach accessories such as the Solera Screen Room™ and Solera Family Room™.

Classic Awning Arm Kit Includes:

- Two Arms
- Mounting Brackets
- Hardware
- Pull cane

- Traditional Manual Spring Roll Up
- Arms detach from bottom bracket and easily swing to "carport" position providing varied pitch options to block the sun at any time of the day
- Universal hardware makes replacing your awning a breeze. Brackets fit right over the mounting holes from your old awning making it easier than ever to exchange your worn out awning
- Great value for replacing any Dometic®, Carefree® or Solera spring-loaded manual awning
- Simple standard manual operation: unlock with wand, unroll with strap, set the braces and raise the arms

Vinyl Fabric

Acrylic Fabric

All Solera Awning canopies feature an integrated track that works with the flexible Solera Fabric Light Kit. The Light Kit slides into the integrated track by the coach side wall and under the awning so you can enjoy light outside the RV when the awning is extended or retracted!

Solera Shield

The built-in Solera Shield provides elegant and practical protection for your Solera vinyl or acrylic awning canopy. As the awning retracts, the aluminum Solera Shield automatically rolls up around the fabric to protect it against the elements during travel. Be sure to order your Solera Shield to match your hardware.

NOTE: Solera Shield not available on XL

Special Order Canopy Options:

- Vinyl fabric with Solera Shield
- Woven acrylic fabric with Solera Shield

SOLERA DESTINATION AWNINGS

DON'T JUST
REPLACE.
EXPAND
YOUR
OUTDOOR
LIVING
AREA BY
20%
with the
**SOLERA
DESTINATION**
9'-8"
projection
canopy.

GO LARGE

Destination campers (or seasonal campers) who set up camp for extended stays will love the Solera Destination Awning. With 20% more shaded area compared to standard 8-foot projection awnings, the 9'-8" Solera Destination Awning is the ultimate solution when you need added living space. **Not only does the Destination awning provide extra shade, it also comes with a center ground support, a Solera Shield to protect the vinyl canopy and a Solera Awnbrella™ to keep the fabric arched and taut to minimize wind flap and enable rain runoff.**

- Operates like any manual spring roll up awning — basically it's a jumbo Solera Classic Awning
- Large 10' projection canopy with aluminum Solera Shield®
- Wide selection of vinyl fabric colors and custom color hardware
- Comes standard with Solera Awnbrella® support bows*

*NOTE: Awnbrella may leave minor stretch marks on awning fabric, depending on use. Fabric in worn condition should be replaced before using Awnbrella. Standard size Awnbrella shown below is not for use on awnings extending more than 9' or awnings that have no roller tube.

Solera® Destination Hardware

9'-8" Projection Roller Assembly

- Requires 78" unobstructed area from awning rail straight down
- This hardware is configured to operate a 10' projection canopy
- Solera Awnbrella bows are also available for 8' projection awnings - see page 72

The Awmbrella's adjustable bows can be installed in about 10 minutes and work with virtually every awning on the market.

Simple camp setup

1 Position 2 Slide 3 Tighten

Enjoy your Awmbrella

Give your awning extra support and better angle for water runoff with the Solera Awmbrella.

Perfect for destination campers who like to leave their awning extended for long periods of time, the patented rust-resistant aluminum bows hold fabric taut and arched so water doesn't pool and debris can easily run off. Now you won't have to camp with one end of your awning pitched lower than the other end. The Solera Awmbrella also complements the Solera Screen Room™ and Solera Family Room™.

Order your Awmbrella based on the width of your awning!

8' Awmbrella: Fits all standard 8 foot awnings. Comes in a two or three pack.

10' Awmbrella: Fits 10 foot Lippert Components® Destination manual awnings as well as Power and Hybrid XL awnings. Comes in a two or three pack.

SOLERA AWNING ACCESSORIES

Solera® 18V Power Pack

Upgrading to a power awning has never been easier! The Solera Power Pack is a unique, rechargeable battery that fits right inside your Solera Power Awning arm and comes with everything you need to connect to the motor wire. This is the perfect awning for DIY RVers who don't want to spend the installation dollars to wire a 12V awning into their RV.

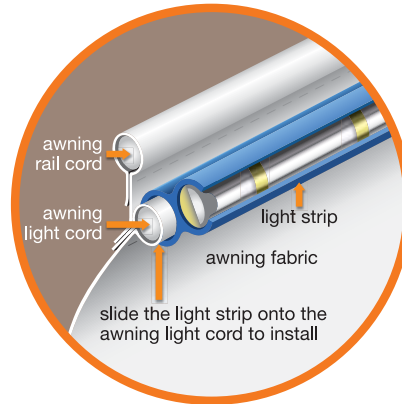

- Same great pitch features as our 12V power awning
- Provides faster extend and retract time
- Comes with 110V charging kit
- Easy DIY installation
- Straightforward alternative to wiring into the RV power source
- Universal hardware option allows for easy replacement on Dometic®, Carefree® and Solera patio awnings

Solera® Classic Front and Side Shades

The Solera Side and Front Shade are the perfect solutions whenever you need extra shade, privacy or wind block. Solera Side Shade panels are available in 6', 7', 8', 9' & 10' screen heights.

Classic Front Shade

width	part no.

15'	3833980615
17'	3833980617
19'	3833980619

Available in black plastic only.

NOTE: Solera Super Shade is available for standard 8' extension patio awnings only; not compatible with Solera XL awnings.

Solera® Super Shade

Many of the larger RV's today have patio awnings that are too high to reach when they are fully extended, and that's why we created the Solera Super Shade! The two-piece, black Solera Super Shade features a standard 6' shade height that easily zips into a Super Shade extension that can be permanently installed into your awning's roller tube. The Super Shade extension can be ordered in five sizes that would provide either a 6', 7', 8', 9' or 10' total screen height. Order the Super Shade extension height based on how high your patio awning is from the ground to roller tube while fully extended. For example, if your patio awning measures 10' high from ground to roller tube, order the 10' Super Shade. The Solera Super Shade comes in 10', 13', 15', 17' & 19' widths.

Save money and keep cool with Solera Window Awnings. Solera Window Awnings block the sun's rays from invading your RV windows and help you cut down on AC usage during the hot summer months. Just use the pull cane to hook the pull strap and pull it to extend the awning. Secure the strap loop onto a hook on the RV wall to keep the awning extended. Go for the best value and the best look and cover two windows with one window awning.

Solera Window Awnings are available in standard arm and canopy sizes for windows that are under 33 inches in height, and in XL sizes for windows over 33 inches. Standard window awning arms are 18 inches long so they'll have an 18-inch projection, and XL window awnings arms are 30 inches long so they'll have a 30-inch projection. Order arms and roller separately.

Keep the heat out and save on AC

SOLERA UNIVERSAL REPLACEMENT FABRICS

Easily replace your awning fabric and skip the guesswork when deciding which fabric to buy. Our updated line of awning fabric is now universal and works with all major competitor awning brands.

- Fits 10' – 21' Carefree®, Dometic® and Solera patio awnings with an 8' projection
- To determine which size of replacement fabric you need, measure your awning from the center of the back arm to the center of the front arm
- All Solera replacement fabrics feature an integrated light cord that accommodates the Solera Fabric Light Kit (pg. 73)— the easiest way to upgrade your awning with LED lighting. LED lights not included

Black Fade BKWG shown

Select From Three Patio Awning Replacement Fabric Options:

All vinyl

- Heavy-duty 13.5 ounce fabric
- Cold-crack tested to -25° F
- 8 color choices

Vinyl canopy with Solera Shield

- Painted Solera Shield is available in black and white

Woven acrylic canopy with Solera Shield

- Woven fabric is breathable, so the area under the canopy may stay cooler than vinyl canopies
- 5 color choices
- Mildew-resistant fabric
- Painted Solera Shield is available in black and white

To order, measure awning center of arm to center of arm.

		Carefree	Dometic

Solera Shield

The built-in Solera Shield provides elegant and practical protection for your Solera vinyl or acrylic awning canopy. As the awning retracts, the aluminum Solera Shield automatically rolls up around the fabric to protect it against the elements during travel. Be sure to order your Solera Shield to match your hardware.

Replacement Arms

There are three types of Solera replacement arms. These arms are universal to both power and manual awnings. Simply measure the length of the wall mount extrusion from top to bottom.

- Short style arms measure 60-1/2"
- Pitched style arms measure 66-1/8"
- Flat style arms measure 69"

Wiring Harness
280570

THULE CROWN

The Thule Crown is a wall-mounted awning featuring an 8-foot projection and quick release, aluminum support legs. With a large range of adapters available, the Thule Crown can be easily mounted in the awning rail of any caravan, RV or motorhome. Thule's contemporary awning design matches modern RV designs and features an improved integration on vehicle sides. This lightweight yet sturdy awning is available in seven different lengths from 6.2 feet to 14.8 feet with a maximum projection of 8.2 feet.

QUICK FACTS

- Thule's sturdy spring arms with patented tension arms ensures a perfectly tensioned awning fabric.
- Support legs are dropped vertically from the lead rail to prevent damage to the RV's exterior.
- Gaps between your RV and awning are no longer an issue. Thule created an optional tent rail to cover the gap under the awning so wall adapters are no longer visible. With the optional tent rail, you can install Thule accessories like the Thule tent or Thule LED strip.

TREAD LITE® POWER STEP

You don't have to settle for a standard manual RV step. Upgrade to the sleek, stylish and lightweight Tread Lite Power Step to enjoy fast, automatic operation, weatherproof components and LED lighting. Available in a single, double or triple configuration, the Tread Lite Power Step features non-slip coating for excellent traction and obstruction-sensing technology that stops the step if anything is in its way.

QUICK FACTS

- Powerful, heavy-duty motor provides smooth operation
- Weatherproof components ensure durable operation
- 13 pounds lighter on average than the competition
- Obstruction-sensing technology prevents step damage
- Non-slip coating provides excellent traction
- LED lighting makes it easy to see step location at night
- Sleek, stylish and significantly lighter than its steel counterpart
- 8.5" step rise and tread depth
- Available in single & double configurations

KWIKEE® POWER STEPS

KwikEE brand power steps have been the favorite of RVers for more than 40 years. KwikEE steps are versatile, durable and time-tested. Each 750-pound-capacity step is made in America and features air pressed rivets in the pivot points instead of bolts for long-term strength. KwikEE steps automatically extend and retract when the door is opened or closed and also feature a reflective strip for added safety.

The Revolution Step

- Extra sturdy
- 30 percent lighter than competing power steps
- Single and double step configurations
- Only weighs 24 pounds

Electric Step Improvements

IMGL

Integrated Motor/Gear Box/Linkage offers improved performance and longer life.

Improved Motor

40% more motor torque gives step a strong lock-out and solid feel.

Improved Gearbox

Fully-sealed dual ball bearing improves efficiency and requires no maintenance. Case halves seal to keep consistent alignment and protect gear from the elements.

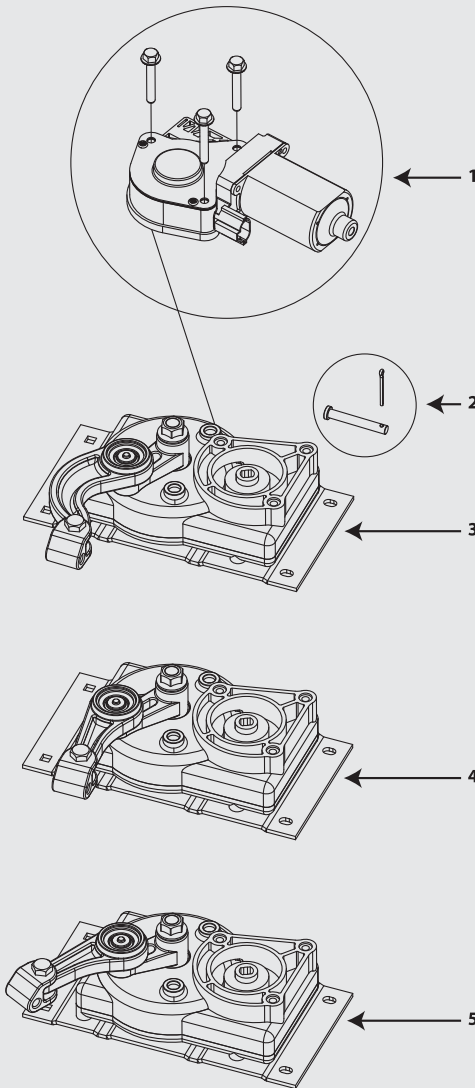

Improved Linkage

Investment cast zinc-plated steel linkage assembly is strong and more resistant to corrosion. The brass spherical outer cage hardened ball in the linkage is stronger, wears longer and will not oblong.

Improved Control Unit Logic

The 9510 Control Unit keeps the step open when the door is open. Step can be locked in the extended position, but cannot be locked in the retracted position. Automatic ignition override makes step follow the door.

MOTOR ASSEMBLY DRAWING AND PARTS KEY NUMBERS

Replacement Parts Kits for Steps Series

22, 23, 30, 32, 33, 34, 35, 36, 38 and 40

Replacement parts for older motor/control combinations are the same as for steps fitted with the IMGL and 9510 Control. IMGL and 9510 Control require a 'NORMALLY OPEN' door switch to operate correctly. Replacement switches included in kit.

379145 for steps with 'A' linkage

379769 for steps with 'B' linkage

379801 for steps with 'C' linkage

MOTORIZED STEP ACCESSORIES

Kwikee Step Control With Override & PKD

Designed to replace the step control unit on your Kwikee Step. It will automatically retract and extend the step when the coach door is opened and closed. It also includes a manual override switch.

379605

Kwikee 9510 Control For IMGL/9510 Step Control

Designed to replace the control unit on pre-IMGL step units that were manufactured from 1999 to 2005.

379146

Kwikee Control Unit For 37 and 42 Series

The Kwikee Control Unit for 37 and 42 Series is designed to automatically retract and extend step when the coach door is opened and closed.

379604

Kwikee Step Motor, Gearbox Upgrade Kit

Specifically designed for Kwikee electric step 25 series.

379804

Kwikee Step Motor Conversion Kit, 42 Series

Specifically designed for the Kwikee step 42 series.

380266

Kwikee Step Repair Kit

Specifically designed for series 28, 31, 37, 39 Kwikee electric steps.

379769

Kwikee Linkage Kit "A" Pre-IMGL

Specifically designed for certain electric Kwikee step series.

379649

Kwikee Linkage Kit "C" Pre-IMGL

Specifically designed for certain electric Kwikee step series.

379647

Kwikee Control Unit For Pre-IMGL/9510 Step Control With 5323 And 5327 Switches

Designed to replace the control unit on pre-IMGL step units that were manufactured from 1999 to 2005.

Kwikee 4-Way Tester Plug With Packard Connector

The Kwikee 4-Way Tester Plug with Packard Connector fits multiple makes and models.

379416

Kwikee Plunger Door Switch With Rocker Kit

Kwikee's camper electric step switch, with rocker kit, allows you to operate your electric camper steps with the touch of a button.

379398

Also available in the original reflective and commercial yellow applications.

Kwikee Glow in the Dark Step Tread Replacements

Kwikee Glow-in-the-Dark Step Treads carry all the features of our original and commercial step treads, and also uses a reflective stripe and a night glow phosphorus stripe. 21" x 6".

379600

Kwikee Electric Step Repair Kit (Replaces Rivets)

The Kwikee Electric Step repair kit is specifically designed for certain Kwikee step series.

380269

Kwikee Cotter And Clevis Pin

The Kwikee Cotter and Clevis Pin offers a low cost option for replacing worn or broken pins.

379178

Kwikee Tape

The Kwikee Tape is designed to ensure traction on RV stairs.

358911: 32" x 8" non-skid

381178: 21" x 6" non-skid

379518: 25" x 8"

165221: 25" x 8" reflective

Grit Tape

237520: Radius Step, 21" x 3"

Anti-Skid Tape

181638: Radius Step, 19.5" x 1.25"

226893: Radius Step, 22.5" x .5"

226894: 4" x .5"

164958: 21" x 6"; Motorized

Kwikee Hardware Kit

Replaces parts within the Coach Step that helps it automatically retract and extend when coach door is opened and closed.

379646

Kwikee Electric Step Repair Kit

The Kwikee 5/8" Electric Step Frame repair kit is specifically designed for certain Kwikee step series.

380268

Kwikee Non-Skid Tread - YELLOW

The Kwikee 8" x 33" Non-Skid Tread - Yellow is designed to ensure traction on RV steps.

MANUAL RADIUS STEPS

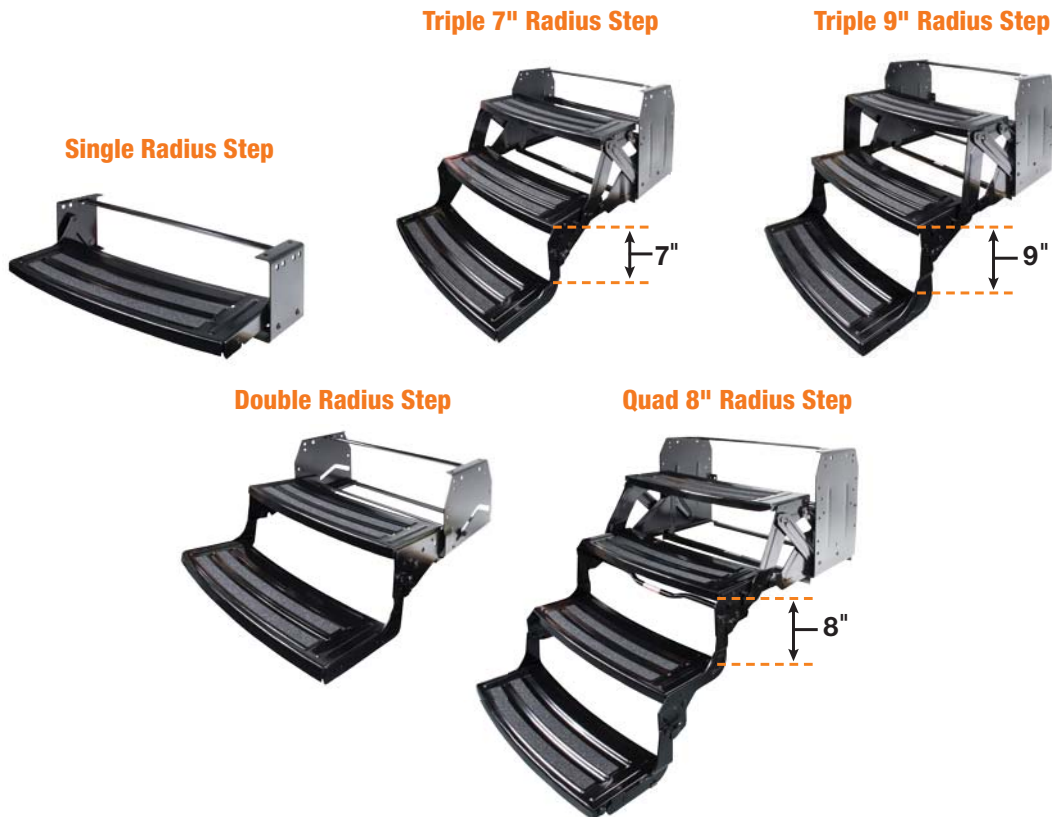

One step ahead of the competition

Lippert Components provides a full line of radius style steps for towable RV's. These steps extend and retract easily with only one hand. All steps have a black powder coat finish that will protect it from the elements. All steps are 24" wide and come with anti-slip skid tape.

QUICK FACTS

- New compact design allows user to expand and collapse step with one hand
- All four steps are equidistant from each other, taking the guesswork out of step location
- Powder coat finish protects from the elements

A close-up photograph of a white RV slide-out mechanism. The slide-out is partially extended, showing a window with a black frame and a yellow highlight on the side panel. The background is a clear blue sky. The text "SLIDE-OUT ACCESSORIES & PARTS" is overlaid in white on a yellow rectangular background in the lower-left corner.

SLIDE-OUT ACCESSORIES & PARTS

FLEX GUARD

The patented Flex Guard is a heavy-duty, flexible rail that offers support and protection to vital slide-out plumbing, wiring and hoses under the slide room floor. The Flex Guard straightens out during extension and bends in an arc as it contracts. Its unique design prevents sagging during slide-out operation that could cause stress and lead to breakage.

QUICK FACTS

- Can be installed on any slide-out system that uses a 1/4" steel rod or swing arm for the same application
- Single, double and triple applications
- All kits come with 8" mounting post with washer and five Flex Guard clips

THROUGH-FRAME & ABOVE-FLOOR SLIDE-OUT MOTORS & ACTUATORS

If both motor and actuator need replaced, use 168956:

168956 Venture Actuator with High Speed Motor

Manufacturer Part No.: 8532-18HT

For use in:

LCI® Electric Through-Frame Slide-Outs 12VDC | 9,500 RPM | 30 Amps | 18:1 Gear Ratio

If actuator only needs replaced, use 145595:

145595 40" Venture Actuator only also works with Tuson Motors

For use in:

LCI Electric Through-Frame Slide-Outs

If only motor needs replaced, get specs from motor label and order accordingly

132682 Venture 18:1 Actuator Motor

For use in:

LCI Electric Through-Frame Slide-Outs 12VDC | 5,800 RPM | HP: 1/2 | 30 Amps 18:1 Gear Ratio | 7694597

136373 Venture 28:1 Actuator Motor

For use in:

LCI Electric Through-Frame Slide-Outs 12VDC | 5,800 RPM | 30 Amps | 28:1 Gear Ratio | 8532-08J

125802 Tuson High Speed 18:1 Motor

For use in:

LCI Electric Through-Frame Slide-Outs 12VDC | 9,000 RPM | 30 Amps | 18:1 Gear Ratio | 1-065-041-012

Additional slide-out motors

138449 D-300 Motor manufactured by Klauber

Manufacturer Part No.: K01285D300

For use in:

LCI 3 x 3 Through-Frame Electric Slides 12VDC | 12 RPM | 9 Amps | 3/4" Drive

130057 N-500 Motor manufactured by Klauber

Manufacturer Part No.: K01285N500

For use in:

LCI Electric Above-Floor Sofa & Bed Slides 12VDC | 10.5 RPM | HP: 1/15 | 7 Amps | 3/4" Drive

133612 Tuson Motor, Drive Shaft & Right Angle Gear Box

Manufacturer Part No.: 1A0650122401YC

For use in:

LCI Electric Above-Floor Sofa & Bed Slides 12VDC | 9,000 RPM | 18:1 Gear Ratio

HAPPIJAC TRUCK CAMPER ACCESSORIES

QUICK FACTS

- 36.5" lift combined with 51" outer tube offers maximum clearance
- Easy-to-access manual override with full 360-degree cranking
- 2,800-pound load rating ideal for multi-slide truck campers
- Efficient, precision CAD design sustains quiet operation
- Plated and powder-coated outer tube resists corrosion
- Field serviceable with easy access to all components
- Wireless control kit available
- Low amp draw
- Each HappiJac Camper Jack has a high quality zinc and powder-coat finish.

4800 Jack

The innovative, heavy-duty 4800 Jack by HappiJac combines customer feedback, research and rigorous testing to provide a stronger, safer jack with an impressive 2,800-pound load rating. Ideal for multi-slide truck campers, the 4800 Jack boasts robust strength, stability and efficiency with a self-lubricating bronze nut, a polished screw and a large Torrington thrust bearing. Three extra inches of length yield maximum clearance and significantly improves lateral and structural support. Each HappiJac Camper Jack features attractive 2-inch square tubing that provides significantly more strength than round tubing.

**HappiJac jacks can easily be upgraded from manual, hand-crank jacks into a remote-controlled electric jack system with the purchase and simple installation of the wireless HappiJac motor drive assembly kit (600700) and wiring kit (600730).*

The strong and sturdy stainless steel Qwik-Load Turnbuckles feature fast lever action, are easy to install and can be adjusted after installation.

Qwik-load Turnbuckles

These strong, lever-action turnbuckles provide quick installation and feature a stainless steel barrel. There is no need to remove the turnbuckle to make tension adjustments. The FM-QLTB includes 2 front spring-loaded Qwik-Load turnbuckles with 11-inch hooks, 2 rear stress-guard Qwik-Load turnbuckles with 24-inch hooks, 4 removable handles and 4 locking pins.

Standard Turnbuckles

The kit includes 2 spring-loaded front turnbuckles and 2 stress-guard rear turnbuckles with stainless steel components.

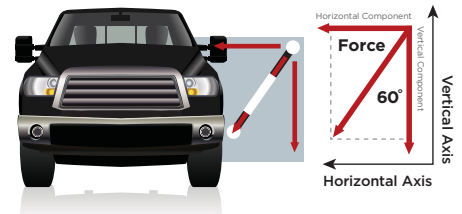

Qwik-load Upgrade

This Qwik-Load upgrade kit comes with 4 Qwik-Load adapters, locking pins and 4 removable handles. It's compatible with any turnbuckles using a 1-inch threaded rod.

Long-action Turnbuckles

HappiJac now offers turnbuckles that reach below the side of the truck in 40-inch long action. The FM-QLLA kit includes 2 Qwik-Load lever-action, spring-loaded stainless steel turnbuckles. The FM-TBLA includes 2 spring-loaded, stainless steel turnbuckles.

HAPPIJAC® FRAME-MOUNT TIE-DOWN SYSTEMS SEALS

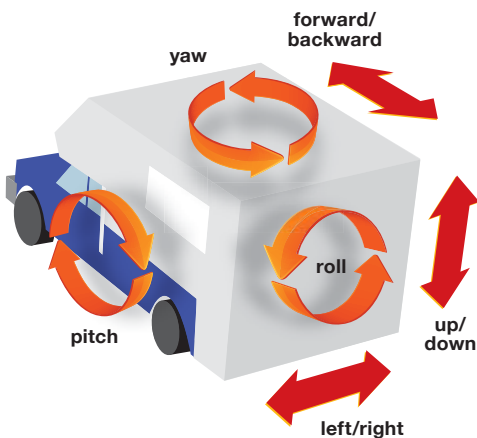

Hapjiac's innovative Frame-Mount Tie-Down System puts leverage to work for you. Its design combines frame strength and sound engineering principles to create an I-beam truss structure that makes your camper an integral part of the truck, providing unsurpassed strength and security. Its frame mount is strong and easy to use. While other tie-downs may "hold your camper down," only Hapjiac Tie-Downs prevent camper movement in all directions (up-down, side-to-side, and front-to-back).

QUICK FACTS

- Price is significantly less than other heavy-duty tie-down systems
- I-Beam truss creates a superior system by utilizing the truck frame, bed and tie-down components to form an I-beam truss structure
- Adds only 27 lbs. to the truck and eliminates ugly protrusions

Controls Camper Movement

Only system that controls camper movement in all directions

HAPPIJAC® CAMPER ANCHOR TIE-DOWN SYSTEMS & PARTS

HappiJac Camper Anchor Tie-Downs provide maximum strength and eliminate leverage and stress forces on a truck. A removable rear tie-down coupler rotates to the direction of pull, eliminating undesirable torque. HappiJac Camper Anchor Tie Downs won't bend, twist or fail.

NOTE: With the exception of the CA-FD4 & CA-FD7, the older style "CA" prefix camper tie-downs listed below do not contain a frame mount component and were designed for use on older trucks or with campers under 2,500 pounds of dry weight. Whenever possible, an "FT" prefix model tie-down set is the best option and must be used on extended or crew cab trucks or campers over 2,500 pounds of dry weight.

Camper Anchor Tie-Downs

RADIUS RV ENTRY DOORS

In just our first five years in the entry door market we brought 40+ never-before-seen product improvements and innovations, including three that are patent pending.

FEATURE	LCI	COMPETITION
Outer Frame Thickness	1/8"	1/16"
UV Stable Window	Standard	N/A
Hinge Size	9-1/2"	6-1/2" to 7-1/2"
Built-in Camber	Standard	N/A
Integrated Felt Seal	Standard	N/A
Screen Door Thickness	1"	1/2"
Screen Door Hinge	Stainless Steel	Aluminum

Upgrade package includes the following:

Friction Hinge

- Wind (up to 30 mph) will not blow entry door shut
- Replaces gas struts and plastic door catches that often break
- Seamless integration requires no additional parts
- Innovative engineering makes door more sturdy

Lighted Threshold

- Lighted threshold activated upon opening
- Takes the guesswork out of step location in the dark
- Durable and protective cover strong enough to withstand the heaviest traffic
- Delivered pre-wired, making it easy to install

Larger Window with Obscure Glass

- Allows more natural light inside with a 12" x 36" window (black frame)

QUICK FACTS

- Polar white skin
- White aluminum extrusion frame
- White window frame with obscure glass
- White handle and hardware
- Screen door included with oversized push-down latch (allows you to open screen door when panel is closed)

MOTORHOME ENTRY DOORS

We have the only motorized entry door on the market that is completely certified FMVSS 206. Most door manufacturers only certify their hinges and latches. LCI has made sure that the entire door assembly holds up to the highest standards. Its interior super-substructure adds extra strength and stability.

BATH TUBS & SURROUNDS

The Better Bath name stands for quality, and our bath products have been the quality benchmark for more than 50 years. All our durable thermoformed bath products are made in America and designed to last. With multiple shapes, styles and backsplashes, we provide a shower or bath configuration that is sure to add timeless elegance to any home or RV.

by  Lippert Components®

ACRYLONITRILE BUTADIENE STYRENE (ABS)

- Weighs 20-25% less than fiberglass
- ABS is tougher and lasts longer than coated fiberglass

STAINLESS STEEL SINKS

Available in single bowl and double bowl varieties. Modern .3937" covered corners give a sleeker look than the standard .5" corners, but are easier to clean than zero radius corners. Stainless steel material makes for easy clean up and an updated appearance. Standard 3-1/2" drain opening is compatible with most garbage disposals and drain baskets. Channel grooves prevent sitting water in the sink bowl.

QUICK FACTS

- Premium quality at an affordable price
- Stylish modern design with square corners
- Made of extra thick, durable steel
- Modern .3937" covered corners give a sleeker look
- Standard 3-1/2" drain opening is compatible with most garbage disposals and drain baskets
- 20 gauge T-304 stainless steel meets or exceeds industry standards mandated by IAPMO

THOMAS PAYNE® COLLECTION

Quality workmanship and unsurpassed comfort are the foundation upon which every piece of Thomas Payne® Collection furniture is built. Equally impressive is the high level of functionality this furniture offers. With six styles of furniture and multiple fabric options to choose from, we have all the seating and sleeping options to suit your needs.

THOMAS PAYNE®
COLLECTION

All fabrics are made of PolyHyde™ Euro Leather vinyl

To clean your Thomas Payne furniture, simply mix mild soap with warm water and dampen a clean rag or sponge to wipe away any dirt or spills.

TRI-FOLD SOFA

Known for its versatile functionality and comfortable sleep surface, the Thomas Payne Collection Tri-Fold Sofa converts to a very supportive, high-density foam bed in four simple steps. Its sleek design maximizes space because it takes up about one foot less when extended than a traditional hide-a-bed. Durable PolyHyde™ upholstery resists stains better than leather or fabric.
