The XPower™ Powerpack 1500 is a backup power system that can supply up to 1500 W of household electricity and is an excellent alternative to a generator. It's quiet and has no fumes, fuel or moving parts, making it safe for indoor use. This mobile workhorse can also be used outdoors, and operates a wide variety of electronics including communication devices, power tools, full-size appliances and more.

The XPower Powerpack 1500 system consists of a battery pack that stores electricity, advanced electronics that convert 12 volts of DC power from the battery pack to household power, an AC power panel that contains two standard outlets, and a DC power panel that is used to operate 12 volt products. Combined in a rugged cart, the XPower Powerpack 1500 can be easily wheeled from room-to-room or outdoors over rough terrain.

Product Features

- » Operates 120 Vac or 12 Vdc products anywhere
- » Sealed, non-spillable 51 amp-hour AGM battery
- » High surge protection and automatic over-temperature and overload shutdown
- » Low voltage alarm and shutdown prevents deep battery discharge
- » Battery level indicator confirms charge level
- » High power 12 Vdc connector
- » Two three-prong AC outlets
- » Padded grip towing handle is removable for easy storage, and built-in side handles allow for easy lifting

Accessories

- » AC charger – recharge the XPower Powerpack 1500 from a standard wall outlet
- » DC charger cable – recharge XPower Powerpack 1500 from a vehicle or RV
